## 27 YEARS OF SERVICE SOLUTIONS

### We Solve Repair Problems

In 1989, AirSept created the first product to effectively eliminate mold, mildew and odor in mobile air conditioning systems. AirSept's Cooling Coil Coating is used by 18 OE vehicle manufacturers worldwide because it is the only product that prevents the return of A/C odor for up to three years.

AirSept is the industry leader in developing OEM and aftermarket solutions to complex automotive repair problems. AirSept products are designed to save time, money and labor.

#### SMART SPLICE™

The ultimate OE-approved line repair solution. Installs on the vehicle in five minutes or less without special tools or adhesives. Durable and leak-proof to 2600 PSI

Page 4

#### RECYCLE GUARD™

The ONLY filter that traps all types of contaminants. Protects expensive A/C service equipment. Compatible with all equipment makes

Page 19

#### COMPRESSOR GUARD™

OE-approved filters protect replacement compressors from residual debris. Available as screens installed in the suction line or as plates mounted between suction hose and compressor

Page 25

#### BLEND DOOR REPAIR KITS

HVAC blend door repair often requires console/dash removal and up to ten hours labor. AirSept Blend Door Repair Kits reduce labor time by up to 80%

Page 35

#### R1234yf SERVICE TOOLS

A complete line of professional grade tools and equipment to service vehicles equipped with R1234yf refrigerant

Page 27 & 28

#### HIGH AND LOW SIDE PORT EXTENDER

A/C high and low side service ports can be obstructed and inaccessible with standard service couplers. High Side Extender solves the problem. Available for R134a & R1234yf systems

Page 27 & 28

#### EVC™ VARIABLE DISPLACEMENT COMPRESSOR TESTER

Our Award winning EVC tester sends commands to the compressor's electronic control solenoid valve without connecting to the vehicle's electrical system.

Page 30

#### GM CABIN AIR FILTER RETRO KIT

OE-approved design allows cabin air filter installation on millions of 2007-2014 GM trucks, vans and SUVs not factory-equipped with a CAF

Page 34

#### A/C CHARGE GUARD

Eliminates risk of electrical damage due to PAG oil entering Electric Compressors on Hybrid vehicles

## 5-Minute Metal Line Repair Solution

Effective, Durable Leak Repair with No Line Removal

### PROBLEM:

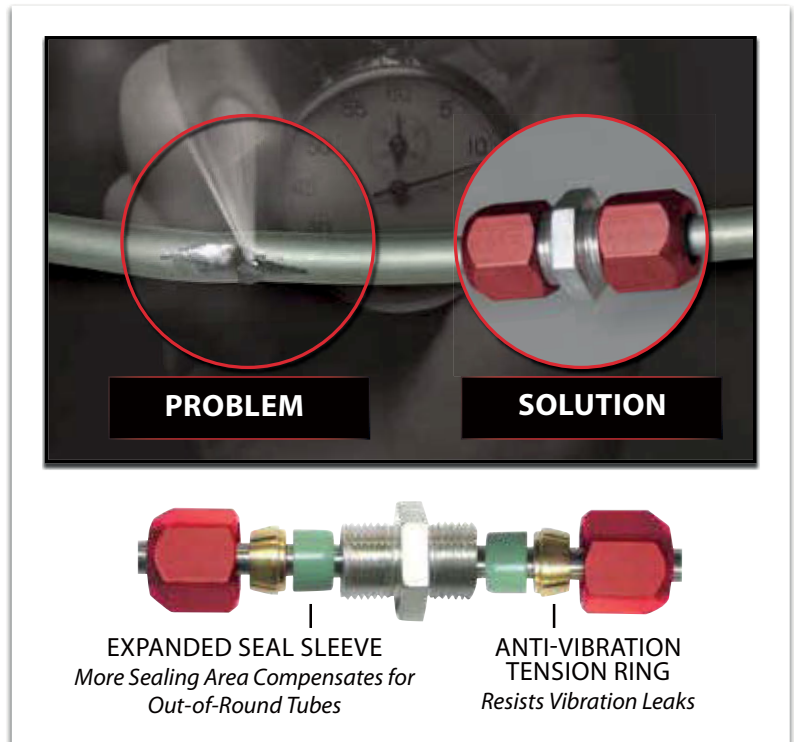

Replacing damaged metal A/C, heater, oil, transmission, and power steering lines can be labor intensive and costly. Most replacement lines are "dealer only" items that can take days to source.

### SOLUTION:

AirSept's Line Splice is a fast, durable repair for metal lines.

### SUPERIOR TO TRADITIONAL COMPRESSION FITTINGS

- HNBR SEAL SLEEVE DRAMATICALLY EXPANDS THE SEALING SURFACE AREA
- HIGH-TECH ANTI-VIBRATION TENSION RING RESISTS VIBRATION LEAKS
- ENSURES DURABILITY IN TOUGH AUTOMOTIVE APPLICATIONS
- 5-MINUTE INSTALL - WITH A WRENCH (NO SPECIAL TOOLS, NO ADHESIVES REQUIRED)
- COMPENSATES FOR OUT-OF-ROUND TUBING
- BURST-TESTED TO 2600 PSI

# EVC-2™ VARIABLE DISPLACEMENT COMPRESSOR TESTER

**NEW!**

## TEST COMPRESSOR FUNCTION AT VARYING LEVELS

**PROBLEM:**

Technicians may easily misdiagnose an air conditioning system problem as a malfunctioning electronically-controlled variable displacement A/C compressor, when in fact the compressor is not at fault. Current diagnostic equipment is complex and can cost 600.00 or more. Technicians need an inexpensive, easy to use test tool.

**SOLUTION:**

High and Low Side Temperatures Tell a Story. Airsept's new EVC-1™ and EVC-2™ Variable Displacement Compressor Testers offer a quick, simple diagnostic process to help rule out an electronically-controlled compressor as a cause of air conditioning system performance problems. It is designed to activate the compressor's electronic control valve to test compressor operating efficiency. It works on all clutchless, direct drive, electronically-controlled air conditioning compressors.

READS HIGH AND LOW SIDE TEMPERATURES

SETS NO ERROR CODES IN OBD II

EASY TO USE

PART NO.	EVC
64500	EVC™-1 with temperature sensors
64501	EVC™-2 without temperature sensors

# GM EQUINOX / TORRENT BLEND DOOR REPAIR KIT™

**OE-APPROVED**

**REPAIR GM A/C BLEND DOORS WITHOUT DASH OR HVAC CASE REMOVAL**

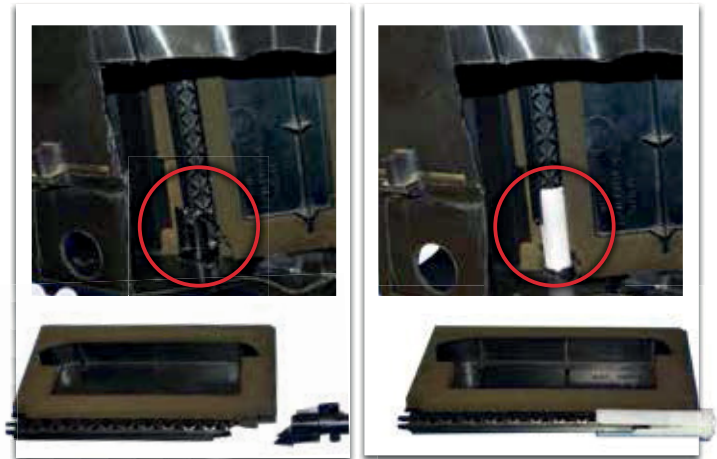

## PROBLEM:

On 2005-2009 Equinox / Torrent models, the blend door shaft can crack where it connects to the actuator control. Previous repair method required over 12 hours of labor time for dashboard removal, and blend door replacement.

## SOLUTION:

AirSept's new patent pending Equinox/Torrent Blend Door Repair Kit™ allows repair of broken blend doors with no dash removal or opening of HVAC case.

- REPAIR ONLY THE DAMAGED SECTION, INSTEAD OF REPLACING THE ENTIRE DOOR
- REDUCES LABOR TIME BY UP TO 80%

DESCRIPTION	PART NO.
Equinox/Torrent Blend Door Repair Kit with Sleeve	68001
Equinox/Torrent Blend Door Sleeve Refill Kit	68002

# FORD F SERIES BLEND DOOR REPAIR KIT

## PROBLEM:

On 1997-2004 Ford F-Series pickups, the HVAC blend door frequently fails at two different breakage points inside the case. Failure means loss of heated air flow into the cabin. Blend door replacement is a 7 to 9 hour job.

## SOLUTION:

AirSept's new patent pending F Series Blend Door Repair Kit allows repair of the blend door without dash or HVAC case removal.

R & R time is reduced to under two hours.

- NO DASH OR HVAC CASE REMOVAL NECESSARY
- TWO DIFFERENT SIZE REPAIR SLEEVES PROVIDED TO MAKE THE FIX AT EITHER BREAKAGE POINT
- NO SPECIAL TOOLS - JUST A RATCHET AND SCREWDRIVER
- REDUCES LABOR TIME BY 5 TO 7 HOURS

DESCRIPTION	PART NO.

Ford F Series (1997-2004) Blend Door Repair Sleeve	68013

## FORD EXPLORER / MERCURY MOUNTAINEER BLEND DOOR REPAIR KIT

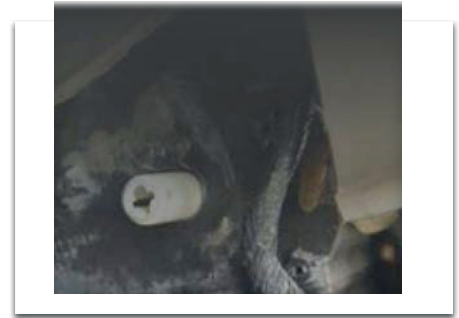

### PROBLEM:

On 2002-2007 Ford Explorer SUVs, the HVAC driver's side blend door often breaks at the actuator motor port. Failure means loss of heated air flow into the cabin. Blend door replacement requires center console, dash and instrument cluster removal, then dropping the steering column.

### SOLUTION:

AirSept's new patent pending Explorer/Mountaineer Blend Door Repair Kit allows repair of the blend door without dash, cluster or steering column relocation. R & R time is reduced by 80 percent.

- NO DASH OR INSTRUMENT CLUSTER REMOVAL NECESSARY
- ACCESS THE ACTUATOR MOTOR BEHIND CENTER CONSOLE PANEL TO COMPLETE REPAIR
- REDUCES LABOR TIME BY 5 TO 7 HOURS

DESCRIPTION	PART NO.
Ford Explorer/Mercury Mountaineer (2002-2007) Blend Door Repair Kit With Sleeve	68004

## JEEP GRAND CHEROKEE BLEND DOOR REPAIR KIT

### PROBLEM:

On 1999-2004 Jeep Grand Cherokees, the HVAC driver's side blend door often breaks at the actuator motor port. Failure means loss of heated air flow into the cabin. Blend door replacement is difficult and time consuming due to the blend door design.

### SOLUTION:

AirSept's new patent pending Grand Cherokee Blend Door Repair Kit allows repair of the driver's side blend door.

Labor time is reduced by up to 75 percent.

- NO DASH OR HVAC CASE REMOVAL NECESSARY
- TWO DIFFERENT LENGTH REPAIR SLEEVES PROVIDED TO MAKE THE FIX FOR DRIVER'S SIDE OR BOTH BLEND DOORS AT ONCE
- NO SPECIAL TOOLS - JUST A RATCHET AND SCREWDRIVER
- REDUCES LABOR TIME BY 5 TO 6 HOURS
