

Product Preview 2014

A black and white photograph of a man in a workshop setting, focused on working on a car stereo installation kit. The kit is a large, complex metal structure with various components, including a control panel with a gauge and buttons. The man is using a tool to adjust a part of the kit. The background is blurred, suggesting an industrial or workshop environment.

PROGRESS

American International

Car Stereo Installation Kits & Accessories

American International continues as the most productive U.S. manufacturer of car stereo installation kits and accessories on the planet. True progress can only be grounded in commitment, and there is no manufacturer anywhere more committed to **assortment, quality and value** than American International.
