## KEY-OPERATED LOCKING LATCH

The ARIES security cargo lid not only works with the rear door of the Jeep, but it also functions independently, meaning it can be opened without requiring the rear door to be opened first. It features a key-operated, quarter-turn latch for quick, convenient access to the cargo area.

Simply insert the key, turn the latch and lift the lid. The locking latch mechanism is made with durable metal components and is covered in a chrome finish for lasting rust resistance.

### / XPE foam

The middle layer of semi-rigid cross-linked polyethylene foam is shock-absorbent, sound-insulating and thermostatic for a more comfortable ride.

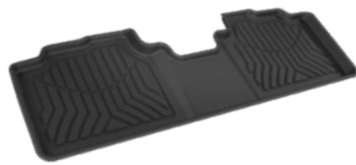

### / Themoplastic rubber

The top layer of finely textured thermoplastic rubber (TPR) is strong, durable, wear-resistant and waterproof to stand up to scuffs, spills and more.
