PRODUCT OVERVIEW

Gaskets and head bolts

Cabin air filter

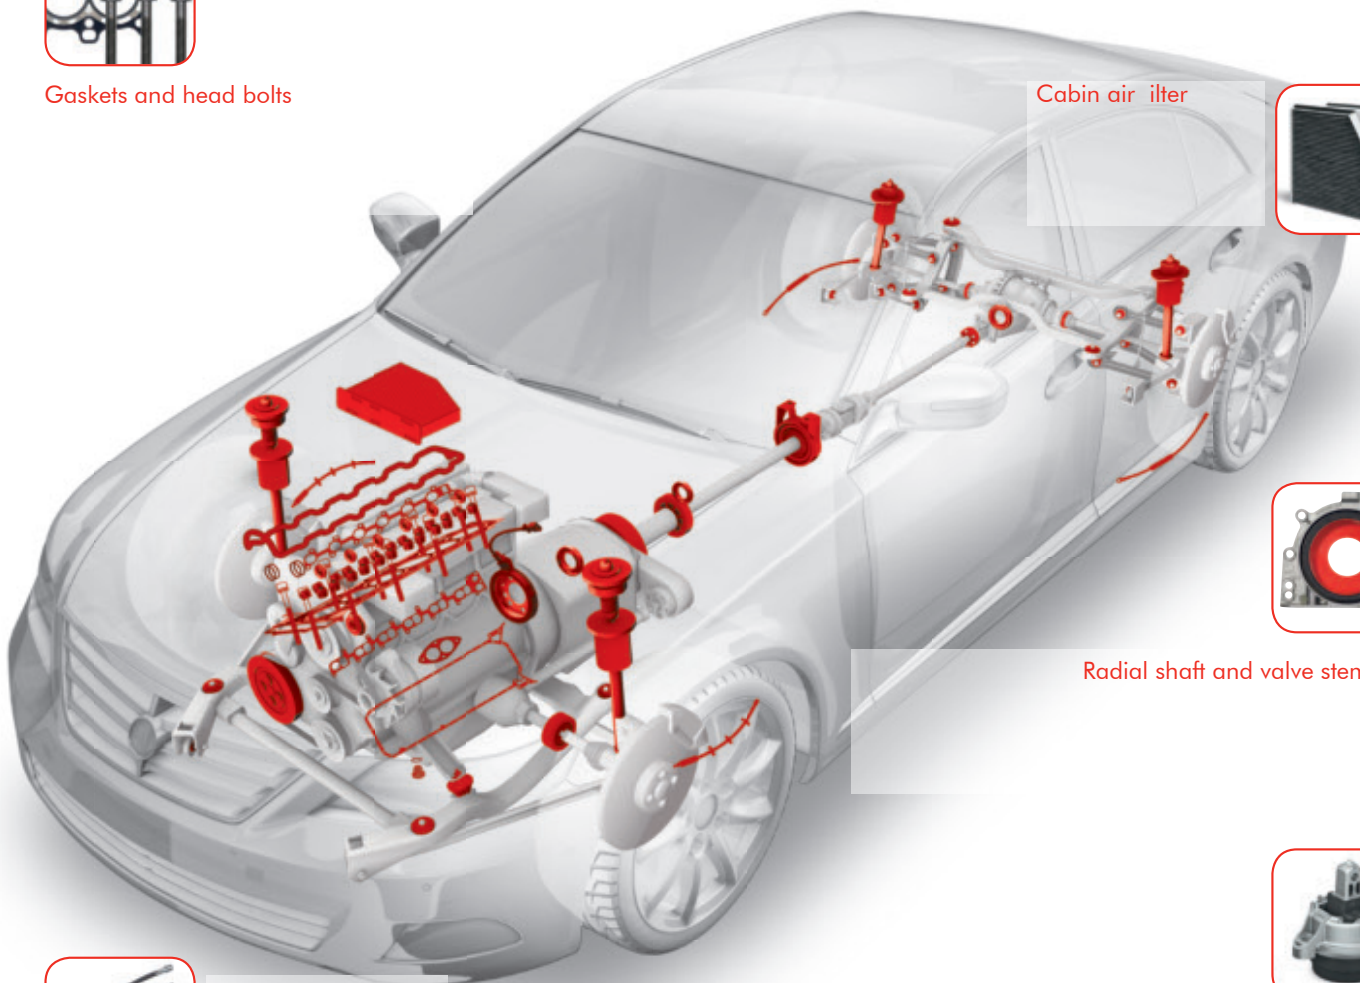

Radial shaft and valve stem seals

Vibration control parts for chassis, engine and transmission

Brake hoses

EN

No matter which products you choose from the CORTECO product portfolio, you always receive outstanding original quality. This high quality standard is directly linked to Freudenberg and characterises our comprehensive spare parts range. CORTECO offers more than 19,000 products and service kits to garages - among them leading brands such as the Simmerring[®] radial shaft seal. Our extensive product programme

comprises Simmerrings, valve stem seals, flat gaskets and engine kits, vibration control technology such as engine mounts, pulleys and suspension mounts as well as cabin air filters and

brake hoses.

Innovating together

MORE THAN 160 YEARS OF EXPERTISE

1849

Carl Johann Freudenberg establishes tannery in Weinheim. Production of patent leather begins.

1936

Agreement with Carl Freudenberg company, distribution of technical leather goods for engines.

1900

Hermann Ernst Freudenberg develops a tanning process using chrome liquor instead of vegetable products. The company becomes the largest leather manufacturer in Europe.

1936

Perbunan (synthetic rubber) is used as a sealing material for Simmerrings and replaces leather.

1920s

Corte & Cosso established in Turin, Italy.

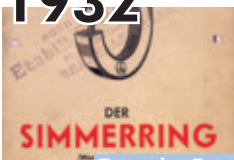

1957

Trust the Expert

In 1957 Freudenberg embraces vibration control technology.

1932

Trust the Expert

The Simmerring® is developed on the basis of the first seals.

1960

Involvement with Nippon Oil Seal Industry Company Ltd, Tokyo (NOK) and partnership in Japanese Vitene Company Ltd (also Tokyo) the company becomes a worldwide operating business group.

1978

TRANStec[®]

TransTec established, partially owned by Freudenberg & Co.

2008

CORTECO[®]

Corteco-Meillor S.A.S. becomes Corteco S.A.S.

1988

Particle filter development commences.

Trust the Expert

2010

Foundation of Corteco China. Further branches open in Poland, Russia, America and Asia.

1996

Carbon activated filter production starts.

2012

TrelleborgVibracoustic

TrelleborgVibracoustic established as joint venture company for automotive anti-vibration solutions. Corteco India and Corteco Ishino Japan are established.

1996/97

CORTECO[®]

Corteco brand established in Turin (Italy), Viernheim (Germany) and Lutterworth (UK).

2014

AUTO SUPPLIERS LIMITED

Corteco expands power steering business. Auto Suppliers Ltd acquired by Corteco.

2001

vibracoustic

Vibracoustic created as joint venture between Freudenberg and Phoenix AG.

2001

CORTECO[®]

TransTec name changed to Corteco USA.

2016

Corteco - a global company, with focus on partnership, service and quality.

An aerial photograph of a lush green forest with a stream flowing through it. The water is a vibrant green, and the surrounding trees are dark green. The stream is bordered by dark, rocky banks. The overall scene is serene and natural.

Your partner for a

NEW AUTOMOTIVE GENERATION

FREUDENBERG - INNOVATING TOGETHER

We are inspired by technology and innovation. Together with our customers and with our research partners, we develop leading-edge technologies, products, solutions and services. Having pioneered innovation throughout our history – from chrome tanning and the development of the Simmerring to sophisticated and high-tech medical devices – our company is an innovation champion. For us, striving together for solutions that support global sustainability is both our motivation as well as our concept for success. We live “Innovating Together” across business groups and world regions. This enables us to provide our customers with solutions and answers to tomorrow’s questions, today.

Sustainable handling

One of the big challenges facing society today is safeguarding the cleanliness of air and liquids. Innovative solutions are called for. Freudenberg Filtration Technologies develops solutions that make processes more efficient, save resources and protect our environment, thereby raising the quality of life.

With almost 60 years of filtration experience dedicated to its customers; Freudenberg Filtration Technologies develops and supplies filtration solutions for surface treatment systems, engine intake air filters and cabin air filters for the automotive industry.

Corteco, subsidiary of the Freudenberg group, is responsible for the distribution of automotive products to the independent aftermarket. With OE connections like this and a reputation for customer service and logistical support that's second to none, it's no wonder that Corteco is able to deliver so many appropriate solutions for so many different countries.

PROTECTS AGAINST POLLEN

micronAir: No. 1 for cabin air filters

HEALTH; THE GREATEST ASSET

Protection against pollutants and pollen

In vehicles without a cabin air filter, concentration levels of pollutants may be as much as six times higher than values at the roadside. Besides allergic reactions, they can also lead to breathing tract diseases, cardiovascular problems and asthma.

micronAir cabin air filters consist of an in-house produced, multi-layered filter medium, which protects occupants effectively against fine dust, pollen, road dust and other fine respirable particles. They ultimately minimize the health risks in the vehicle and provide comfort while driving.

7 THINGS TO KNOW ABOUT micronAir® CABIN AIR FILTERS

- Cabin air filters make sure that you have clean, fresh air in your car everyday
- Carbon activated / combi cabin air filters additionally free the air in your vehicle from ozone and odours
- Your cabin air filter needs to be changed every 10.000km or at least once a year
- Fogged windows may be due to an insufficient or clogged cabin air filter
- A clogged cabin air filter can negatively influence the service life of your air conditioning and heating system
- micronAir cabin air filters protect allergy and asthma sufferers against sneezing and watery eyes. A sneezing attack at a speed of 80 km/h leads to 25 meters of blind driving
- **micronAir cabin air filters are car manufacturers' first choice** – micronAir cabin air filters are installed in every second new car

Without cabin air filters, pollen, soot, dust and gases as well as unpleasant odours reach the interior of the vehicle directly and occupants breathe in unfiltered air, complete with pollutants. It is not only exhaust emissions and industrial pollution that can significantly impair the health and well-being of the occupants, agricultural substances such as fertilizers and liquid manure and natural irritants such as ozone also have a negative impact on health.

Trust the Expert in Filtration

A cabin air filter always provides clean air whilst driving

micronAir particle filters protect against fine dusts, and also against pollens, road dust, abraded particles, soot, bacteria, industrial dusts and other respirable ultra-fine particles.

The micronAir combi filter provides protection against the same pollutants as the particle filter - Using a layer of activated carbon, it additionally adsorbs odours and gases, like benzene or ozone. Besides the small solid particles, the gases, smaller by a factor of ten million, also penetrate as far as the deeper regions of the lung. The dangerous irritant gas ozone can cause reactions like headaches, coughing or streaming eyes. The activated-carbon layer in the micronAir combi filter will break down up to 99 percent of the ozone.

HIGH PROTECTION
+ activated carbon

HEALTH PROTECTION

- Protection against fine dust
- Protection against particles

DRIVING SAFETY

- Protection from poor visibility due to fogged windows
- Improved safety for allergy sufferers, no watery eyes or sneezing

SYSTEM PROTECTION

- Protects the heating and air conditioning system

DRIVING COMFORT

- Protection against ozone (can cause headaches / nausea)
- Protection against odours

Peak performance with

ENGINE INTAKE AIR FILTERS

Modern high-performance engines need clean air for peak performance. The atmosphere contains both natural (pollen, dust, sand, etc.) and industrial (soot, abraded materials, pollutants, etc.) contaminants which can adversely affect the combustion process, cause engine damage, and affect the sensors present in modern engines.

Apart from standard filter features such as the removal of particles and water, the use of synthetic nonwovens allows the latest design options. These filters can be tailored to fit the available space in accordance with EU pedestrian protection requirements.

Filters for high-performance engines, made from synthetic materials, offer ground-breaking features, such as:

- optimum deep-bed filtration with 150% longer service life and improved initial filtration performance
- ageing resistance and resistance to pressure surge thanks to the use of fully synthetic materials
- non-combustible materials offering advantages in the case of fire
- new processing possibilities thanks to thermoplastic materials
- optimum system protection in accordance with ISO 5011

WE DELIVER THE ORIGINAL.
 – Corteco, Freudenberg Group

FREUDENBERG

2 billion Seals per year for the automotive industry in Europe

TrelleborgVibracoustic

Market leader in Vibration Control with around EUR 1.7 billion turnover per year

micronAir®

Cabin Air Filters in every other new car

DISCLAIMER

EN

Every care has been taken to ensure this information is correct at the time of publication. We cannot accept re-sponsibility for errors. This catalogue contains prod-ucts in original quality. We reserve the right to make technical changes. Original numbers from automobile manufacturers only serve as a cross-reference com-parison with the CORTECO-No. and should not be used in delivery notes and invoices to vehicle owners. Full or partial reproduction permitted only with our written approval.

INSTALLATION POSITIONS

The filter is located

- 1 in the engine compartment
- 2 in the engine compartment on the driver's side under the cowl panel
- 3 in the engine compartment located centrally under the cowl panel
- 4 in the engine compartment on the passenger's side under the cowl panel
- 5 in the engine compartment on the driver's side under the radiator tank cover
- 6 in the engine compartment located centrally under the radiator tank cover
- 7 in the engine compartment on the passenger's side under the radiator tank cover
- 8 in the engine compartment behind the ventilation grilles
- 9 in the engine compartment at the heater (air-conditioner)
- 10 in the passenger compartment behind the glove compartment
- 11 in the passenger compartment under the glove compartment
- 12 in the passenger compartment on the driver's side
- 13 in the grille under the windscreen wiper on the driver's side
- 14 under the hood
