# THE N-FAB DIFFERENCE

N-FAB Inc. was founded on the concept of innovative fabrication and has been dedicated to delivering premium products of the highest quality for Light Truck, Jeep and Sport Utility Vehicles. Through extraordinary focus on Design, Development and Manufacturing every element in the production of an N-FAB product contributes to THE N-FAB DIFFERENCE.

All N-FAB products are designed with innovation in mind, resulting in patented concepts, designs and an intellectual property that define the N-FAB brand. At the heart of the N-FAB product line of premium truck accessories, are the patented N-FAB Nerf-Steps. Introduced over a decade ago, N-FAB Nerf-Steps were a major evolution in truck steps and are immediately recognizable with their unique "hoop step" design. Unlike other step-up products N-FAB Nerf-Steps feature a one-piece design with the main tube, mounting brackets and step hoops welded into one assembly to provide the most durable fit available in step products. Available in several styles, N-FAB Nerf-Steps are THE vehicle access solution for stock or lifted trucks for work or play.

Nerf Steps are just the beginning, N-FAB now offers products in five key categories...Step Systems, Light Mounting Solutions, Bumpers, Jeep Gear and Accessories. Among the latest new products from N-FAB are the AdjustSTEP and N-Durastep premium step lines which offer N-FAB quality and durability with all-new styling, character, and functionality. Light Mounting Solutions and Bumpers are built specifically for popular LED Lighting Products and N-FAB stands as the total vehicle accessory solution for Light Truck, Jeep and Sport Utility Vehicles.

All N-FAB products are made from the highest grade material and are hand built by our team of craftsmen in Houston, Texas. The finishing touch is N-FAB's multi-part powder coating process consisting of a zinc base coat and a thick layer of Gloss Black or Textured Matte Black powder coat. From conception to finished product, every N-FAB product is the best in class.

# STEP SYSTEM CONFIGURATIONS

## Cab Length

Spans the distance from the back of the fender well opening to the rear of the vehicle's cab. Regular cab models have one step per side while Quad Cab and Crew Cab models have two steps per side.

## Wheel 2 Wheel

Spans the distance from the back of the front fender well to front of the rear fender well opening. Regular Cab models have one step per side while Quad Cab and Crew Cab models have two steps per side.

## Bed Access

Spans the distance from the back of the front fender well opening, to the front of the rear fender well opening. Regular Cab models have two steps per side while Quad Cab and Crew Cab models have three steps per side.

# AdjustSTEPS wheel 2 wheel

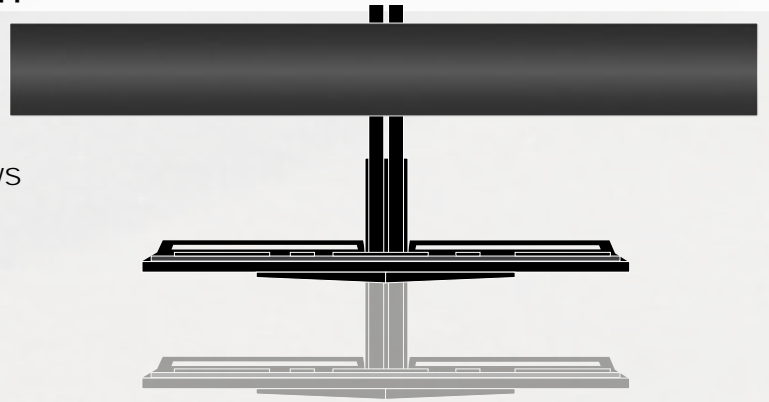

**ADD-A-STEP BED/ACCESS INSTALLED #ASU001**

N-FAB takes innovation to a new level with "AdjustSTEP", adjustable height step pad. These steps are built around N-FAB's patented mounting system. This is N-FAB's popular 3" wheel to wheel main tube assembly featuring Vertically Variable Step(VVS) Technology, allowing for up to 5 1/2" of vertical height adjustment at each step. This technology makes "AdjustSTEP" ideal for any vehicle whether stock or lifted. "AdjustSTEP" come equipped

with steps for each door and can be upgraded to a Bed Access configuration with a pair of optional Add-A-Steps (ASU001). "AdjustSTEP" are finished in textured black powder coat over a zinc base coat for ultimate corrosion resistance. N-FAB "AdjustSTEP" are backed by N-FAB's Lifetime Craftsmanship Warranty and 5-Year Finish Warranty.

PATENTED MOUNTING SYSTEM ALLOWS FOR THE STEP TO BE LOWERED OR RAISED FOR THE PERFECT STEP HEIGHT.

# RKR Rails with detachable steps

N-FAB RKR Rails provide superior protection while enhancing the look of the vehicle. Constructed using 0.120" wall, 1.75" tubular steel, RKR Rails are treated inside and out for extra corrosion resistance so you know they are built to last. Finished with a durable textured black powder coat, N-FAB RKR Rails look as good as they perform both on and off-road.

Making a great product even better, N-FAB offers optional Detachable Steps (JPTS32 sold separately) that are compatible with all N-FAB RKR Rails and Factory Toyota FJ Rock Rails. These steps offer convenient vehicle access for daily use and can be removed to allow for maximum ground clearance when off-road.

# N-Durasteps wheel2wheel

The N-FAB N-Durastep reflects a renewed vision in styling and performance for the vehicle accessory segment. The N-Durastep features patented step technology while providing an all new access experience for light truck and SUV owners. N-Durasteps have proven N-FAB durability that has contemporary styling. N-Durasteps feature an Extra Large Step Surface and a 7" Drop from the vehicle

threshold. N-Durastep models are available in both Wheel to Wheel and Bed Access configurations.

All N-Durasteps are finished using a durable semi-gloss black powder coat finish over a zinc base coat for ultimate corrosion resistance. All N-Durasteps are backed by N-FAB's Lifetime Craftsmanship Warranty and 5-Year Finish Warranty.

# Nerf-Steps bed access

N-FAB's innovative and patented hoop step design is taken a "Step" further with the Bed Access Nerf-Step. Designed with the customer in mind, this Nerf-Step allows easy access to the forward vehicle bed to gain access to toolboxes, 5th wheel and gooseneck hitches, along with other items that tend to collect at the front of every truck bed.

Constructed from .084" wall steel tubing, this Nerf-Step has added strength and durability that yields

a 465 pound weight rating, which is the highest in the industry. Bed Access Nerf-Steps are offered in standard gloss black powder coat finish over a zinc base coat for ultimate corrosion resistance. Also available in textured black finish by adding "-TX" to the part number.

All Bed Access Nerf-Steps are backed by N-FAB's Lifetime Craftsmanship Warranty and a 5-Year Finish Warranty.

# Nerf-Steps wheel 2 wheel

One of N-FAB's most popular styles is the Wheel to Wheel Nerf-Step. Utilizing N-FAB's patented hoop step and innovative mounting system, N-FAB Wheel to Wheel Nerf-Steps work on vehicles with and without body lift kits with no modifications to brackets or bars.

All N-FAB Wheel to Wheel Nerf-Steps are built using .084" wall steel tubing and offer an industry high weight rating of 465 pounds. N-FAB Wheel to Wheel Nerf-Steps are constructed as one-piece assemblies to provide maximum strength and durability not

found in modular designs. Wheel to Wheel Nerf-Steps are designed and built specifically for each application, and mount high and tight to the vehicle cab for a clean factory look.

N-FAB Wheel to Wheel Nerf-Steps are available in standard gloss black powder coat finish over a zinc base coat for ultimate corrosion resistance. They are also available in textured black finish. Wheel 2 Wheel Nerf Steps are backed by N-FAB's Lifetime Craftsmanship Warranty and 5-Year Finish Warranty

# Stainless Steel Nerf Steps wheel 2 wheel

Built with today's work truck in mind, N-FAB offers its patented hoop step design and innovative mounting system in a Cab Length Configuration. Designed with classic N-FAB styling, Cab Length Nerf-Steps are ideal for flatbed trucks, stake bed trucks, vehicles with campers and even trucks with side exhaust forward of the rear wheels. Manufactured from .084" Wall Tubular Steel, Cab Length Nerf-Steps provide all of the strength and durability for which N-FAB is

known. N-FAB Cab Length Nerf Steps are available in standard gloss black powder coat over a zinc base coat and are also available in textured black finish for ultimate corrosion resistance and durability. All Cab Length Nerf-Steps are backed by N-FAB's Lifetime Craftsmanship Warranty and 5-Year Finish Warranty

Featuring a brilliant mirror finish. N-FAB has crafted its innovative and patented Wheel to Wheel Nerf-Step configurations in a beautiful 304 marine grade polished stainless steel finish. Featuring all of the same fit, form, and function as the classic N-FAB Wheel to Wheel Nerf-Steps, the stainless steel line adds an extra touch of elegance and style to any vehicle. All Stainless Steel Nerf Steps feature the ever-popular drop hoop step design. This combination allows you to have a beautiful step to accompany the other

accessories on your truck or SUV, with the peace of mind knowing you have a step that is built to last a lifetime. Like all N-FAB Nerf-Steps, the Stainless Steel Nerf-Steps are constructed as a one-piece welded assembly for the ultimate in secure fit and durability. N-FAB stainless steel Nerf-Steps are backed by a Limited Lifetime Warranty on both workmanship and finish. Available exclusively in Wheel to Wheel Cab Access 4 step configurations, N-FAB Stainless Steel Nerf-Steps are unquestionably "A Step Above" the competition.

N-FAB Light Bars are the perfect solution when you want to mount auxiliary off road lighting on your Jeep®, truck or sport utility vehicle. Available to mount up to four 9" round lights or today's popular LED Light Bars in a 30" size. N-FAB Light Bars are made from .095" wall steel tubing providing stability

in a rattle-free design that is subtle, yet functional. Available in standard gloss black finish over a zinc base coat for maximum corrosion resistance. N-FAB Light Bars are also available in textured black finish. N-FAB products are backed by a Lifetime Craftsmanship Warranty and a 5-Year Finish Warranty.

Add -TX to the end of part number for Textured Black

# Pre-Runners

Off-Road inspired and road tested, N-FAB Pre-Runners are a perfect compliment to other N-FAB products including Nerf-Steps, Rear-Runners and Tire Carriers. Built to the high standards N-FAB has become known for all Pre-Runners feature .095" wall tubing and have been designed to fit no more than 2" away from the front bumper creating a tight fitting clean appearance.

N-FAB Pre-Runners are manufactured to hold three 9" round lights (unless otherwise noted) for exceptional light dispersion. Standard color is a gloss black powder coat over a zinc base coat for extra corrosion protection. All Pre-Runners come with N-FAB's Lifetime Craftsmanship Warranty and a 5-Year Finish Warranty.

# DRP Light Cage

Designed and engineered for the serious off-road enthusiast, N-FAB Light Cages provide protection for expensive off-road lighting and the vehicle's front bumper while capturing that awesome pure off-road appearance. Manufactured using .095" wall steel tubing Light Cages are built to hold up to three 9" round lights with standard post-style mounts.

Available in gloss black powder coat finish over a zinc base coat for maximum corrosion resistance, Light Cages are also available in textured black powder coat. All N-FAB Light Cages are made in the USA and are backed by a Lifetime Craftsmanship Warranty each come standard with a 5-Year Finish Warranty.

## Skid Plates RSP / RDS

Want to upgrade your F150 or Raptor RSP Bumper, RDB Upper Radius Bumper, or URB Upper Radius Bumper? Do so with an N-FAB Lower Skid Plate. In either a gloss black or texture black with Brushed aluminum Skid plate, the N-FAB Lower Skid Plate adds an extremely clean "off-road" look to the vehicle while stiffening the front lower suspension mounts. With our easy all bolt-on installation, the N-FAB Lower Skid Plate can be added in a matter of minutes.

# RSP Bumpers with direct fit LED

RSP Bumper with direct fit LED allows for mounting of 1 to 2 38" LED light bars. Applications that mount 2 LED light bars have a slot on each side that allows for multiple configurations of 38" LED light bars.

# RSP Bumpers with Multi-Mount

40" Multi-Mount Tab on most RSP Bumpers with MMT

RSP Bumper with Multi-Mount allows for mounting of multiple combinations of LED, Halogen and Xenon Style Lights.

Built strictly for off-road use, N-FAB's RSP Replacement Bumpers are available for both conventional lights and today's popular LED Light Bars. RSP replacement bumpers are also available in a "Winch Ready" model for limited applications. The finishing touch on the RSP bumper is a 3/16" brushed aluminum skid plate with a precision-cut "N-FAB" logo that will protect vital underbody components.

Featuring true off-road styling, the RSP Front Replacement Bumper is designed to bolt directly to the factory bumper mounts for ease of installation.

RSP Replacement Bumpers are built using 1.75" .095" wall tubing that is treated inside and out for maximum corrosion resistance. All RSP bumpers are built as one-piece assemblies ensuring maximum durability for the toughest of conditions.

Available in a Standard Gloss Black Powder Coat RSP Replacement Bumpers are also available in textured black finish by adding "-TX" to the part number. Skid plates come standard in a brushed aluminum finish and are available separately in gloss black and textured black powder coat finish.

# Jeep Windshield Mounts

## 50" Modular Windshield Mounts

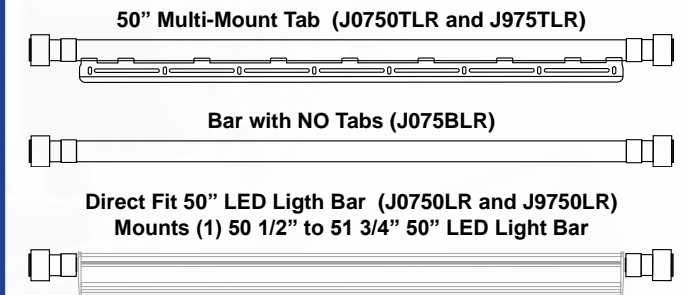

## Windshield Mounts

Among N-FAB's vast array of overhead lighting products, the Jeep® JK 50" LED Modular Windshield Mounts are a standout. Available as kits for specific lighting arrangements, the upper mounting brackets can also be purchased separately when it is time to change your lighting arrangement. Available to mount a variety of single row and dual row 50" LED Light Bars this could be the only overhead light mounting system you will ever need for your JK. Made from Lightweight but strong 1/8th" aluminum, the 50" LED Modular Windshield Mounts are a direct bolt on. Standard color is textured black powder coat and has a 5-Year Finish and Lifetime Workmanship Warranty.

Add overhead lighting with N-FAB Windshield Light Mounts. This N-FAB light mounting solution features durable steel construction and are designed as Jeep® Specific. Available for conventional post mount lighting, LED lighting products and without tabs for universal applications this light mounting solution is made in the USA and backed by a 5-Year Finish Warranty and a Limited Lifetime Craftmanship Warranty.

### Windshield Mount configurations

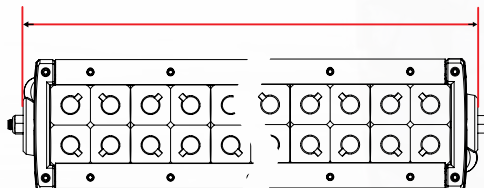

## 49 and 50 Series Windshield Mounts

N-FAB's 49 and 50 Series Windshield Mounts (WSM) are the simplest way to add overhead lighting to your Jeep® Wrangler JK. Featuring 3/16" Cold-Rolled-Steel Construction, N-FAB's 49 and 50 Series WSM Mounts directly bolt on to your factory A-Frame bolt locations. With these two series of WSM Mounts, N-FAB allows you to choose whichever light bar you want - simply measuring the housing of the light bar will determine which series to buy! Coming in a Standard Textured Black Powder-Coat, N-FAB's 49 and 50 Series WSM Mounts come with a 5-Year Finish / Lifetime Craftmanship Warranty.

MEASURE LENGTH OF LED LIGHT FROM END OF HOUSING TO END HOUSING.

Total length of housing 49" to 50 3/8" use 49 Series  
Total length of housing 50 1/2" to 51 3/4" use 50 Series

# Jeep RSP and RBS Bumpers

N-FAB's RSP replacement bumpers are available for both conventional lights and today's popular LED light bars. The finishing touch on the RSP bumper is a 3/16" brushed aluminum skid plate with a precision-cut "N-FAB" logo that will protect vital underbody components. Featuring true off-road styling, the RSP Front Replacement Bumper is designed to bolt directly to the factory bumper mounts for ease of installation. RSP Replacement Bumpers are built using 1.75" .095" wall tubing that is treated inside and out for maximum corrosion resistance. All RSP bumpers are built as one-piece assemblies ensuring maximum durability for the toughest of conditions. RSP Jeep Bumpers are available in eight unique configurations - with or without outer bars, with or without winch plate, Direct fit LED or 4 Light Tabs. Standard Color for JK is textured black powdercoat, TJ Standard color is gloss black or add "-TX" for textured black.
