**AUTOMOTIVE LIGHTING  
& ACCESSORIES**

Pacer Performance has been providing quality products to the Automotive Aftermarket since 1965. The Pacer line-up provides stylish, simple and cost effective lighting and protection solutions.

**Lighting:** Starting with our Hi-Five Cab Roof lights, which provide OEM and aftermarket replacements for your Chevy/GMC, Dodge/Ram or Ford pickup. They are offered with Amber, Clear and Smoke lenses and feature replaceable L.E.D. or Incandescent bulbs. These quality cab roof lights are easy to install and come complete with all necessary hardware.

The Outback Series tailgate lights are more than just a third brake light, these multi-functional tailgate lights feature, running light, brake light, and left/right indicators. In a world of distracted drivers having extra lighting is essential.

**Protection:** The Flexy Flares are our signature product in the protection line-up. Flexy Flares are manufactured using heavy duty EPDM rubber and can be easily installed to contour to most wheel openings. They do a great job providing protection and also can make those wide tires legal for street use.

Quality and cost effective. Another simple solution in the protection series is our bumper and door guards. From our Top Slider bumper guards that help protect from everyday trunk access to the Heavy Duty rubber bumper guards that provide impact protection for any vehicle.
