# THE **PILOT** AUTOMOTIVE - WANG'S INTERNATIONAL STORY

**W**ang's International was founded in 1983 based on the belief that providing high quality products at fair prices was a guiding principle that would carry the company to a successful future. This value proposition became the foundation on which all Wang's and Pilot activities are based.

Wang's International began as a small, niche supplier of automotive accessories to the traditional Accessory Market. Pilot Automotive was created in 1996 to support the growing DIY Market. Both sides of the company are designed to specialize and maximize the different types of support required for different types of markets. In the beginning, our warehouse and offices actually occupied the same room and we had one employee. Today, we have grown to five distribution centers, more than 100 Pilot team members, and are one of the largest automotive and truck accessory suppliers. We purchased the intellectual property of American Products Company (APC) and added Vehicle Performance Systems (VPS) in 2006. APC is one of the best known accessory brands in the history of the Specialty Equipment Market and VPS is our OEM Division – now supplying a number of vehicle manufacturers of all types. In 2007, we added DME (Design Motorsports Engineering) and DC Sports, an iconic performance brand. Racing Sports Akimoto and Dub-Air were added to our family of brands in 2008. DC Sports, DME, Racing Sports Akimoto, and Dub-Air comprise the Performance Division of Pilot. Whatever you drive, you can count on Pilot to offer the highest quality, most innovative, best performing product for your car or truck!

We know you have a lot of choices in the products you select for your vehicle, and we sincerely appreciate your decision to purchase our products. When you purchase a Pilot product you have a company and a team that stands behind those products in every way. Our goal is not to meet your expectations but to consistently exceed them. From our factories to our customer service department to our financial, sales, logistics, and marketing teams, our commitment is to deliver a great product to you at a great value, every time!  
PILOT AUTOMOTIVE strives to develop the best products on the market.

Thank you for 25 great years!

The Pilot Automotive Team

**FOG LIGHTS**

Pilot's fog lights cast a wide, low beam underneath the factory head lamp beam. This helps to increase visibility without reflecting glare from rain, fog or snow back into the driver's eyes. All of Pilot's fog lights include the necessary hardware and wiring to make installation as simple as possible.

**PROJECTOR FOG LENS**

Pilot's projector beam pattern fog lights cast a wide, low beam much like a standard fog lamp. The projector beam pattern fog lights have a more distinctive cut off beam pattern. It provides a wider, clearer field of vision without reflecting stray light into oncoming driver's view. These fog lights can easily be mounted in the front air dam or bumper of most vehicles.

### FOG LIGHTS

Our Navigator Cyber White series fog lights are designed to cast a low and wide beam under your factory head lamp beam. This increases visibility without reflecting glare from rain, fog or snow back into the driver's eyes. They include the necessary hardware and wiring to make installation as simple as possible. This series of lights combined with our Navigator Cyber White series driving lights create the perfect auxiliary lighting planogram. They all feature the latest blue lenses with simulated H.I.D. white beam patterns for the brightest light.

## PERFORMANCE HEAD & TAIL LAMPS

### QUALITY

All of the performance tail lamps featured are manufactured to the most stringent standards for quality and safety. These lamps are guaranteed compliant to U.S. Federal Motor Vehicle Safety Standards (FMVSS-108) and meet all SAE specifications and DOT regulations. They are certified compliant by government recognized independent test laboratories. In addition, they are manufactured to OE quality standards, including QS9000 and ISO9001.

### PERFORMANCE

Our stringent testing standards for quality extend far beyond the manufacturing of the product. We test all of our lenses, reflectors, projectors, harnesses and the lamp housing to make sure they exceed your expectations for performance. The lenses are extremely durable and scratch resistant. The reflectors are always aimed correctly for maximum safety and our projectors ensure maximum brightness.

### INNOVATION

All of our lamps are designed to incorporate the most bold, fresh and exciting new styles available on the market. Not only are they available for a wide range of applications, they also come in a wide variety of styles and finishes. Chrome, carbon fiber, brushed silver and paintable bezels are some of the options that are available.

### Bolt-on Design

#### A. **PM-551**

- Round resonated
- Fits 1 1/2" - 2 1/2" pipes
- Outlet diameter: 3 1/2"
- Inlet diameter: 2 3/4"
- Total length: 8"

#### B. **PM-552**

- Round slant resonated
- Fits 1 1/2" - 2 1/2" pipes
- Outlet diameter: 3 1/2"
- Inlet diameter: 2 3/4"
- Total length: 8 1/2"

#### C. **PM-553**

- Square slant resonated
- Fits 1 1/2" - 2" pipes
- Outlet diameter: 2 3/4" x 2 3/4"
- Inlet diameter: 2 1/2"
- Total length: 7"

#### D. **PM-554**

- Rectangular slant resonated
- Fits 1 1/2" - 2" pipes
- Outlet diameter: 3" x 2 3/4"
- Inlet diameter: 2 1/4"
- Total length: 7"

#### E. **PM-555**

- Round non-resonated
- Fits 1 1/2" - 2" pipes
- Outlet diameter: 3"
- Inlet diameter: 2 1/4"
- Total length: 7"

#### F. **PM-556**

- Round resonated
- Fits 2 1/2" - 3 1/4" pipes
- Outlet diameter: 4"
- Inlet diameter: 3 1/2"
- Total length: 10"

#### G. **PM-577**

- Round resonated
- Fits 1 1/2" - 2 1/2" pipes
- Outlet diameter: 4"
- Inlet diameter: 2 3/4"
- Total length: 9"
