MOLLE PANELS

The Putco MOLLE Rack System is custom engineered to fit directly to each make and model using the existing OEM mounting points in the bed. The rack systems allow you to keep your gear organized, easily accessible and secure. They work with all MOLLE, PALS, Quick Fist, and many other gear strapping systems to hold your cargo in place on the roughest roads.

PAGE 119

NITRO 360™ FOGLIGHT KITS

The Nitro 360™ foglight kit offers the ability to adjust to any driving conditions. Simply using the vehicle's fog light switch change your light's color from white to amber or vise versa. It boasts a 6000K white temp for driving in low visibility and 3000K yellow that helps in weather such as rain, snow, or fog. On top of these features is the 360° light pattern for improved peripheral visibility. The Nitro 360 delivers the best versatility when it comes to fog lights.

PAGE 36

VENTURE TEC™ RACK

PUTCO's VentureTEC Overland Modular Cargo System begins with a sleek bed rack designed to provide endless mounting options through its patent-pending TEC channel system. Constructed using high quality, lightweight 6061 t6 aluminum, this cargo system allows you to bring anything on-the-go!

AGE 43

VENTURE TECTM ACCESSORIES

Putco's VentureTEC Overland Modular Cargo System structure was meant to be accessorized by anything that one would want to bring along for the trip. Putco offers many accessories that will be sold separately and will continue to add to the catalog of accessories creating an endless amount of configurations. Utility is at the heart of VentureTEC and it is delivered through the accessories shown and will continue with future additions.

NEW PRODUCTS

HORNET™ AMBER LED STEALTH ROOFTOP STROBE LIGHT BAR

Designed with a sleek, low profile, and stealth design in mind. It is fully weatherproof with lightheads completely sealed off and encapsulated with an easy roof mount setup, you'll be ready to go in no time.

PAGE 18

LUMINIX HOOD MOUNTS

Custom brackets design to mount using OEM bolt locations eliminating need for any drilling or cutting. All brackets allow free range of motion of hood in open or closed position.

PAGE 150

LUMINIX STEALTH GRILLE MOUNTS

Utilizes OEM bolting locations to create a simple no drill installation that can be done in minutes. Each fitment positions light bar behind grille or bumper grille to create a discrete low profile install when light bar is not illuminated.

PAGE 143

BUMPER GRILLE INSERTS

Upgrade the front end of your vehicle with Putco's high quality stainless steel and black powder coated grille inserts. This application is durable enough to weather everyday wear and tear. It is CNC-cut for precision fitments ensuring that our hidden mounting systems are in perfect alignment. This eliminates visible hardware and provides a seamless integration in to your OEM bumper.

NEW PRODUCTS

AGE 50

Mud Shield™

PUTCO's New Mud Shields are designed to fit nearly any vehicle and deliver protection from rocks, mud, snow buildup and other debris your truck kicks up. Mud Shields™ install in minutes and are constructed with Gorillatuff Splashguards™ material. They come in 3 different sizes with your choice of a polished stainless steel or a black platinum anti-sail plate.

AGE 54

Mud Skins™ Solid

PUTCO's Mud Skins™ Solids are custom-fit and deliver protection from rocks, mud, snow buildup and other debris your truck kicks up. Mud Skins™ solid are easy to install and can be mounted in minutes. Available in your choice of polished stainless, brushed stainless, or carbon black high-density polyethylene finishes.

PAGE 58

Mud Skins™ Hex Shield

PUTCO's New Hex Shield™ Series Mud Skins™ are custom-fit and deliver protection from rocks, mud, snow buildup and other debris your truck kicks up. Mud Skins™ featuring new Hex Shied™ design insztall in minutes. Be sure to protect and stylize your vehicle with the Hex Skins™ Series Mud Skins™. They come in your choice of polished stainless, brushed stainless, or carbon black high-density polyethylene finishes.

AGE 44 · 46

TEC CROSSRAILS & ELEVATED TEC CROSSRAILS

TEC Crossrails and elevated TEC Crossrails add more areas to customize your Venture TEC Rack while increasing the stability of the overall structure and can easily be installed in minutes. Adding them to your Venture TEC rack creates many more ways to use your rack and is ideal for those who simply have more to take along or need to increase the strength of their cargo system to attach heavier items on top such as bike racks, tents, storage containers, roof racks or anything else that fits your needs.

MOLLE PANELS

- MODULAR LIGHTWEIGHT LOAD CARRYING EQUIPMENT-

GET GEARED UP.

A pickup full of gear doesn't have to be a jumbled mess. Whatever you're doing it's inevitable at some point you're going to end up with a bed full of gear. The Putco MOLLE Rack System is custom engineered to fit directly to each make and model using the existing OEM mounting points in the bed. The rack systems allow you to keep your gear organized, easily accessible and secure. They work with all MOLLE, PALS, Quick Fist, and many other gear strapping systems to hold your cargo in place on the roughest roads.

LOCKER RAILS

STYLE. FUNCTION. PROTECTION.

Load it up, tie it down and head out! Putco Locker Rails add tying loops at each end of the rail for versatile cargo securing rated up to 500 lbs each. Putco Locker Bed Rails come in highly-polished stainless steel and boast 13/4" tubing to enhance the tough appearance and rugged performance of your truck. Installation takes just a few minutes. Simply bolt your truck bed rails through your stake pocket holes-no cutting or drilling required. If you don't have stake pockets, simply drill two holes and bolt them in.

NO DRILL INSTALLATION

Installation utilizes the truck's built-in stake pockets to secure the locker rails to the bed.

2 STAINLESS **STEEL TUBES**

Stainless Steel tubes are the foundation of the locker rail's durability and strength.

B TIE-DOWN **STRENGTH**

Tie-down strength is rated at 500 lbs

FEATURES

· Solid die cast construction on bed rail ends

STYLE

Add a touch of class to your truck with Putco's locker rails. Comes in several different styles with the choice of chrome or nylon black stanchion ends. See following pages for examples of each

FUNCTION

Putco locker rails can be utilized as easy access tie-down points across each side of the bed of your truck to help secure your cargo load. See available options for different tie down options including the pop-up tie down points.

PROTECTION

Putco locker rails also offer a barrier of protection against scratches, dings and dents to the bed walls that may occur when loading objects into the truck bed.

BOSS RACK

BOSS OF ALL RACKS.

The Putco Boss Rack™ is constructed of top grade aluminum to provide a product that will serve your needs for years to come. This is a product so durable, so tough, it will likely outlast the truck you mount it on! Putco's one of a kind Boss Rack™ was designed with custom extrusions for seamless and perfect light bar mounts. Putco's Boss Rack delivers premium quality protection for your truck while turning heads with it's unparalleled performance.

WORKS WITH EXISTING TONNEAU COVERS AND LOCKER RAILS

MADE IN AMERICA

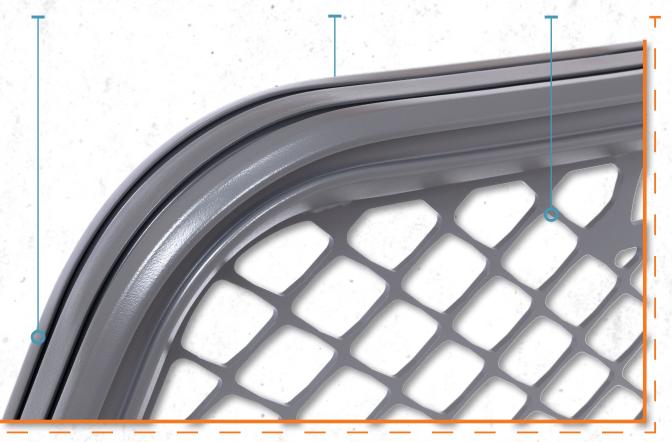

Lightweight and strong 6061 T6 aluminum construction.

2 TEC CHANNELS

Unique dual channel system creates secure and reliable connection points for a diverse collection of accessories.

3 CHAMFERED EDGES

Custom 3 axis CNC center plate pattern with sleek stylized chamfered edges.

APPLICATION SPECIFIC SIZING FOR EACH MODEL

T

BOSS™ RACK

ALL ALUMINUM CONSTRUCTION

CUSTOM CNC MILLED 3RD BRAKE LIGHT OPENING ON EACH APPLICATION
ZERO OBSTRUCTION WHERE IT COUNTS

FEATURES

- · Putco exclusive patent pending.
- · CNC 7 axis bending for exact vehicle cab
- · Custom 3 axis CNC center plate pattern with third brake light opening.
- \cdot Ready built to integrate Putco's LED light bars and Tec Rail $^{\text{TM}}$
- · Lightweight and strong 6061 T6 aluminum.
- · Works with all inside rail tonneau covers. Narrow mounting brackets for discrete installation utilizing stake bed pockets.

SEAMLESS LIGHT BAR INTEGRATION

NO DRILL POCKET INSTALLATION

HIGHLY COMPATIBLE DESIGN

BUILT FOR ACCESSORIES

NO DRILLING NECESSARY

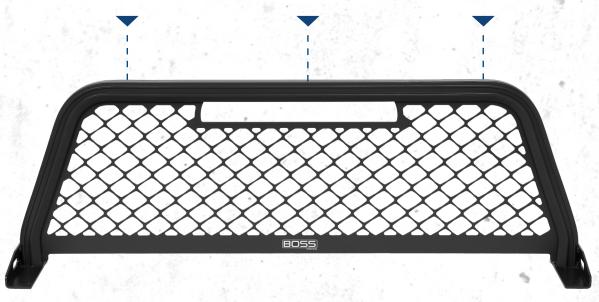

Boss Racks come with hardware that allow no drill mounting. Insert brackets in stake pocket and simply tighten bolt in place.
Additional bolts included if drill mount is desired.

TEC RAIL™ COMPATIBLE

Mounting plate fits directly with Tec Rail stanchions with precise alignment for full Tec Rail integration. Hardware is identical to Tec Rail hardware for quick and easy upgrade to full Tec system.

BED COVER COMPATIBLE

Boss Rack and Tec Rail both fit seamlessly with rolling and folding Tonneau covers. No modification necessary. Mounting plates seat flush directly outside of cover tracks.

Overland modular cargo system

WHERE ADVENTURES BEGIN.

PUTCO's VentureTEC Overland Modular Cargo System begins with a sleek bed rack designed to provide endless mounting options through its patent-pending TEC channel system. Constructed using high quality, lightweight 6061 t6 aluminum, this cargo system allows you to bring anything on-the-go!

TENT MOUNTING KIT

VENTURE TEC FEATURES

EZ-TEC ACCESS SLOTS

Easily place or remove TEC channel compatible products for customizing your cargo load

CLAW-GRIP JOINTS

Every joint is securely fastened with a 4-bolt mechanism paired with the CoreTEC Block which is a solid aluminum stabilization insert.

6061 T6 ALUMINUM

6061 T6 Aluminum construction provides a lightweight and durable core for carrying any cargo load that will attach to the framework. Load Rating: 500 lb dynamic & 1000 lb Static

TIE DOWN POINTS

Tie down points have been integrated in the VentureTEC design for the convenience of securing cargo.

VentureTEC TUBE DESIGN + CoreTEC BLOCK

TEC CHANNEL SYSTEM

Designed as a universal system for all VentureTEC accessories to fasten securely to the rack.

CUSTOM BLADE GROOVE

This custom groove is fully compatible with any Putco patented Blade LED Light Bar.

CORECTOR BLOCK

The CoreTEC Connector Block is a solid billet aluminum insert that fits snugly within tube and reinforces each joint section of the VentureTEC rack to ensure stability and strength of the structure.

STAKE POCKET BED MOUNTS

The core of the system mounts to any truck bed via stake pocket mounts which allows the truck bed to be a strong foundation for the rack.

CNC 7 AXIS BENDING

CNC 7 axis bending allows for exact vehicle cab contour to create a sleek look to your vehicle while maintaining full functionality of the rack.

PUTCO LED INTEGRATION

VentureTEC was engineered to work seamlessy with Putco's patented LED Luminix and Blade Light Bar series

#92010-36L

BLADE LED Light Bar

VentureTEC works seamlessy with Putco's patented BLADE LED Light Bar bringing a full functioning taillight to the rack system.

#10020 shown (other sizes available)

LUMINIX Series Light Bar

VentureTEC is compatible with the Luminix series light bars. A variety of mounting options allows for

VentureTEC also supports use with popular overland gear brands including Rotopax, Maxtrax, Yakima.

All company names are trademarks™ or registered® trademarks of their respective holders. Use of them does not imply any affiliation with or endorsement by them.

VEHICLE FITMENT OPTIONS

PUTCO VentureTEC Overland Modular Cargo System is designed to custom fit various OEM truck beds through its multitude of fitting options and versatility. Utilizing the stake pockets to secure to the bed of the truck allows the vehicle to become a support foundation for the entire rack system. The innovative design also allows room for a bed cover to be used, along side additional mounting options for smaller trucks without stake pockets, making it the perfect fit for anyone!

ELEVATED TEC CROSSRAILS

KICK IT UP A NOTCH WITH ELEVATED TEC CROSSRAILS

This version of the TEC Crossrail takes your Venture TEC Rack or your Truck Bed TEC Rails to the next level. This allows you to maximize the cargo space of your truck and provides more areas to add more items or storage to your rack or rail set. Putco's patented TEC Channels are featured on the crossrails and continues the endless ways that you can customize your Venture TEC Rack or TEC Rails. Whether you need to add a larger tent or storage rack that extends above your cab or if you want to be able to haul your bicycles along, the Elevated TEC Crossrails will give you the ability to expand your truck's versatility.

ELEVATED TEC CROSSRAIL FEATURES

- 6061 T6 Aluminum construction
- 9" aluminum risers
- CoreTEC Connector Block reinforces end joints
- · Sized to specific Venture TEC Rack or TEC Rail
- Patented TEC Channel System for attaching accessories
- · Installs in minutes
- Sold as pair

Elevated TEC Crossrails are perfect for hauling larger or longer cargo by safely securing items above your truck's cab area.

SHELD.

ONE TOUGH SHIELD.

PUTCO's New Mud Shields are designed to fit nearly any vehicle and deliver protection from rocks, mud, snow buildup and other debris your truck kicks up. Mud Shields install in minutes and are constructed with Gorillatuff Splashguards™ material. They come in 3 different sizes with your choice of a polished stainless steel or a black platinum anti-sail plate.

QUICK & EASY INSTALLATION

Universal design accomadates each make and models' mounting locations. Each can be positioned higher or lower to adjust to wheel size and body height. This allows the owner flexibility in terms of placement to maximize protection.

SINGLE PIECE CONSTRUCTION

Each flap is a single piece of Gorillatuff Splashguards™. Without having any additional points of attachment ensures the most durable construction. Mud Shields are able to withstand any and all road debris that a vehicle can kick up at it.

ANTI-SAIL PLATE

The Anti-Sail provides extra weight to keep the Gorillatuff Splashguards™ in place while traveling down road. The added pressure from wind can cause lift, which can create a larger gap between the road surface and the bottom edge of the rubber. This additional piece adds an accent point with a critical function. By reducing the gap, Mud Shields™ does a better job protecting the items being towed from damaging road debris.

FEATURES

- · Set consists of 2 mud flaps
- · Single Piece Construction
- · Made from Gorillatuff Splashguards™ nearly industructible material
- · Channeled Surface to direct debris and moisture

MUD SHIELD

- · Flexible material for better debris protection
- · Available with Black Platinum Anti-Sail Plates or no anti-sail plate at all

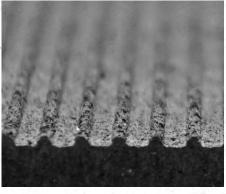

GORILLATUFF SPLASHGUARDS™

GORILLATUFF SPLASHGUARDS™ DURABILITY & FUNCTIONALITY

CHANNELED SURFACE

The patented design uses gravity and wind flow to unite fine droplets forcing water to drip from the bottom of the flap rather than aerosolize and create a mist that makes lane changes and vehicle passing dangerous.

SIMPLE & DURABLE BUILD

A superior mud flap begins with better materials and a simple but solid one-piece construction. The nearly indestructible rubberized poly blend is made from 95% recycled materials all sourced from here in the U.S. The entire flap is a single piece of this durable material which ensures that the strength of the flap is consistent throughout the full length. This extruded splash guard has undergone rigorous testing for UV damage and is backed by Putco's extensive warranty program.

RECYCLED MATERIALS

Part of what makes this product so great is that the material itself is comprised of 95% recycled materials. Reducing waste and creating a superior hitch flap at the same time to create a state-of-theart material for long-lasting durability.

HOW IT WORKS

SMOOTH SURFACE

Traditional smooth surfaced mud flaps allow moisture to flow to the perpendicular edge creating fine particulates with low visibility.

CHANNELED SURFACE

Channeled splash protection is a feature of Gorillatuff Splashguards $^{\text{TM}}$ that channels water from the truck tire to the ground.

SHINS

FEATURES

- · Set consists of 2 premium mud flaps.
- · Laser cut for precision fit
- Riveted Construction
- Offset design allows for tire clearance
- · Flexible material for better debris protection
- · Available in polished stainless, brushed stainless and carbon black HDPE finishes
- Features new Hex Shield™ pattern
- Designed for single rear wheel and dual wheel applications.

SOLID DEFENSE

PUTCO's Mud Skins™ Solids are custom-fit and deliver protection from rocks, mud, snow buildup and other debris your truck kicks up. Mud Skins™ solid are easy to install and can be mounted in minutes. Available in your choice of polished stainless, brushed stainless, or carbon black high-density polyethylene finishes.

MOUNTING BRACKET

The Mounting Bracket on the Mud Skins Solid version is a simplifed utilitarian take on the original Mud Skins Hex-Shield . Each mud set is design to align directly with OEM mounts making installation easy. The flat no-recess design is perfect for deflecting debris and makes for an easy to clean surface.

BOLTED STRUCTURE

All components are fastened securely with bolts that ensures that your mud flaps will not fall apart when enduring road debris.

ANTI-SAIL WITH HEX-SHIELD™ PATTERN

The Anti-Sail provides extra weight to keep the GorillaTuff™ Splash Guard in place while traveling down road. The added pressure from wind can cause lift, which can create a larger gap between the road surface and the bottom edge of the rubber. This additional piece adds an accent point with a critical function. By reducing the gap, the Hitch-Flap™ does a better job protecting the items being towed from damaging road debris.

SETBACK DESIGN

Mud Skins utilize a hefty 18 guage stainless steel mounting bracket that is offset to position the Gorillatuff® Splash Guards back to allow more room for larger tires while still providing the protection and clearance that you need. Mud Skins will not interfere with your preference for big tires and dirt roads.

GORILLATUFF SPLASHGUARDS™

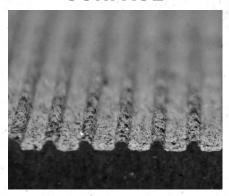

GORILLATUFF® SPLASH GUARDS

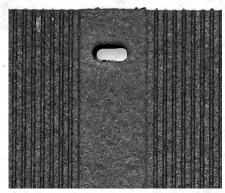

A superior mud flap begins with better materials. The nearly indestructible rubberized poly blend is made from 95% recycled materials all sourced from here in the U.S. This extruded splash guard has undergone rigorous testing for UV damage and is backed by Putco's extensive warranty program.

CHANNELED SURFACE

The patented design uses gravity and wind flow to unite fine droplets forcing water to drip from the bottom of the flap rather than aerosolize and create a mist that makes lane changes and vehicle passing dangerous.

REINFORCED BOLT LOCATIONS

Patented Design prevents ripping and tearing at bolt holes (US Patent #7,097,208 B2). Eliminating grooves the length of the flap where mounting locations are drilled prevents vertical cracking. This detail while simple is essential to the strength and integrity of the mudflap.

RECYCLED MATERIALS

Part of what makes this product so great is that the material itself is comprised of 95% recycled materials. Reducing waste and creating a superior hitch flap at the same time to create a state-of-theart material for long-lasting durability.

HOW IT WORKS

SMOOTH SURFACE

Traditional smooth surfaced mud flaps allow moisture to flow to the perpendicular edge creating fine particulates with low visibility.

GORILLATUFF® CHANNELED SPLASH PROTECTION

CHANNELED SURFACE

Channeled splash protection is a feature of Gorilla Splash Guards that channels water from the truck tire to the ground.

AVAILABLE SKIN OPTIONS

POLISHED STAINLESS STEEL

Putco's proprietary stainless steel features a super 8 mirror finish that delivers the shiniest and most refelective surface and a durable longlasting build that is highly resistant to corrosion.

CARBON BLACK HIGH-DENSITY POLYETHYLENE

This finish has a light textured matte black look that is CNCed High-density polyethylene. This material is corrosion resistant, has a temperature range of -60C to 180F, will not crack or fade under UV.

BRUSHED STAINLESS STEEL

This option is made from a high Molybdenum 304 stainless steel that has a brushed grain metallic sheen to not only protect your vehicle but give your vehicle a modern industrial look.

APPLICATION COVERAGE COMING SOON

PUTCO®

SINS

HEX PROTECTS.

PUTCO's New Hex Shield™ Series Mud Skins™ are custom-fit and deliver protection from rocks, mud, snow buildup and other debris your truck kicks up. Mud Skins™ featuring new Hex Shield™ design install in minutes. Be sure to protect and stylize your vehicle with the Hex Shield™ Series Mud Skins™. They come in your choice of polished stainless, brushed stainless, or carbon black high-density polyethylene finishes.

MOUNTING BRACKET WITH HEX-SHIELD™ PATTERN

The Mounting Bracket features Putco's new HEX SHIELD™ pattern that not only serves as a stylish accent to your vehicle's look but provides a strong mounting surface where the pattern becomes a versatile connection area for attaching to your vehicle. This makes installation quick becuase it can be easily attached no matter the location of your vehicle's mounting points.

BOLTED STRUCTURE

All components are fastened securely with bolts that ensures that your mud flaps will not fall apart when enduring road debris.

ANTI-SAIL WITH HEX-SHIELD™ PATTERN

The Anti-Sail provides extra weight to keep the GorillaTuff™ Splash Guard in place while traveling down road. The added pressure from wind can cause lift, which can create a larger gap between the road surface and the bottom edge of the rubber. This additional piece adds an accent point with a critical function. By reducing the gap, the Hitch-Flap™ does a better job protecting the items being towed from damaging road debris.

ROCKER PANELS

RIDE WITH STYLE.

Don't let scratches and minor rusting drag down your trucks' style, outfit your ride with Putco rocker panels. A perfect fit for a truck owner that wants to protect their truck from rocks and other debris. These rocker panels are made from top quality stainless steel. Putco takes the time to polish each piece to a mirror finish similar to chrome. These kits are custom cut to fit your exact specifications, providing maximum protection against damaging rocks or other debris while keeping mounting simple and easy.

PUTCO® PILLAR TRIM

STAINLESS STEEL · BLACK PLATINUM

ALL LASER CUT WITH 3M™ BACKING

#402678

PILLARS OF STYLE.

Putco stainless steel pillar post trim is tailor made for a seamless fit on your year, make and model. Running the length of your side pillars, these polished metal 3MTM backed pillar posts add a clean sharp look to your profile that's sure to turn heads. Best of all, they're built from pure T-304 stainless steel, so they'll outshine, outlast, outperform other chrome pillar posts.

TUTCO FENDER TRIM

SUPERIOR FINISH.

Putco Fender Trim is the easiest way to create a custom look for your truck, SUV, or car. Designed for reliable durability and style, this trim features a stainless steel construction and installs directly to your truck without modification. Our fender trim is available in Stainless Steel and Black Platinum finish that combines the bright styling of chrome with the intensity of black for a uniquely deep finish. Pair them with any number of Putco's trim pieces to create bold and dominating appearance.

TUTCO ELEMENT WINDOW VISORS

STEP DOWN

INJECTION

SA SIGN.

Simple installation using $3M^{TM}$ automotive tape.

Made of GE^{TM} Polycarbonate

No cutting No drilling

RAIN OR SHINE.

Add style and convenience to your car or truck! Putco Element Window Visors look great on your vehicle, and they keep wind and rain from ruining your cruise. They're made from tough ABS plastic to withstand the abuse of the road, and topped off with either a striking CASS Chrome or subtle Smoke finish.

TUTCO WINDOW TRIM

CHROME PERFECTION.

Enhance your vehicles' appearance by upgrading with the Putco Chrome Window Trim. Specifically designed for an easy and custom fit, these Window Trim pieces are constructed out of durable ABS plastic and feature a bright chrome like finish. They'll easily complement your truck's factory chrome finishes, adding clean lines that are perfectly paired with bright tube steps or any of Putco's chrome trim pieces. Use this kit to add the finishing touches on your truck or start your very own styling project.

CHROME WINDOW TRIM

QUICK & EASY INSTALLATION

#97502GM

FEATURES

- · Made from chrome ABS.
- · Installs easily simply peel the 3M tape and stick the part on.
- · Custom designed to precisely fit each vehicle.
- · Materials engineered for durability.
- · Premium quality.
- · 1 Year Warranty.

MIRROR COVERS

ACCESSORIES | Mirror Covers 89

MATCHING CHROME COVERS.

In next to no time you can upgrade the overall appearance of your truck with Putco's chrome mirror covers. Our chrome mirror covers are constructed from heavy-duty automotive grade ABS chrome which provides the strength and durability to outlast damaging rocks, bugs, and other debris. Each mirror cover is finished with Putco's NeveRustTM chrome finish, which is resistant to cracking and peeling. Mounting is made easy with preapplied Automotive 3MTM tape. Installations is easy as peeling the back off of the 3MTM tape and placing over the existing mirror.

CHROME MIRROR COVERS

#401160

FEATURES

- · Dramatically enhances the look of the factory mirror.
- · Applications to fit the most popular vehicles.
- Installs easily with pre-applied Red 3M[™] Tape, simple peel and stick.
- · No cutting or drilling required.
- · Made of an Automotive Grade ABS Chrome.
- Long lasting material designed to withstand the rigors of the elements.
- · Matches OEM Chrome perfectly.
- Add our Chrome Door Handles, Head Lamp Covers, and Tail Light covers to complete the look.
- · Priced Right! No other product on the market like it.
- · 1 Year Warranty

TUTCO DOOR SILLS

PROTECT THE ENTRY WAY.

Putco's Stainless Steel and Black Platinum Door Sill Plates are made out of high-quality 26 gauge 304 stainless steel and feature laser cut 3M™ backing for a hassle-free installation. This method of installation is non permanent and does not require vehicle modification. Our black platinum series is made from the same high-grade stainless steel that then receives a black anodized finish for extra corrosion resistance a great look. All of our licensed door sill plates are precisely laser-etched for a crisp, clean look that is sure to catch attention while protecting your door sills.

SOLID ALUMINUM BILLET PEDALS

Putco Track Design Solid Billet Pedals include gas, clutch and brake pedals. They are made from heavy gauge aluminum that ensures long lasting durability. These pedals feature aggressive milled in pyramid nubs for a secure anti-skid surface. This is a quick and easy upgrade for any vehicle. Simply remove your existing pedals, align new solid billet pedals and bolt into place. The track design facilitates easy installation and is backed by a lifetime warranty.

BILLET PEDALS

ALL NEW TRACK PEDAL DESIGN

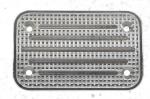

#932145

- · Custom fit by application; the industry's only model-specific Billet Pedals!
- · Includes Gas and Brake pedals (parking brake and clutch pedal when applicable)
- · For some applications, Foot Rests are sold individually.
- · Track design features a smooth finish.
- · Heavy gauge 1/4" Aluminum construction.
- · Backed by Putco's Lifetime Warranty.

ALL PRODUCTS ARE PATENTED AND PROPERTY OF PUTCO®

SLEEK & TOUGH.

Upgrade the front end of your vehicle with Putco's high quality stainless steel and black powder coated grille inserts. Our stainless steel grilles are backed by our lifetime Never Rust™ guarantee, which means you will never have to worry about rust or corrosion. Black powder coated products have a 90-day warranty on the painted surface. This application is durable enough to weather everyday wear and tear. It is CNC-cut for precision fitments ensuring that our hidden mounting systems are in perfect alignment. This eliminates visible hardware and provides a seamless integration in to your OEM bumper.

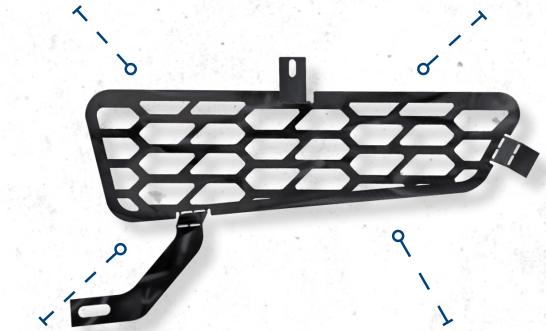

MADE IN THE USA

Designed, manufactured, & packed in Des Moines, IA. Putco® has been proudly supporting the automotive industry for over 50 years.

2 CUSTOM FITMENTS

Every part is designed and built to fit utilizing the OEM mounting system allowing for no drill installations.

2 FINISHES AVAILABLE

Our 26 guage 304 stainless steel is available in a high polished stainless steel or black mini-texture powder coat finish.

4 ALL NEW PATTERN

The all new Hex-Shield™ pattern offers a subtle yet undeniable accent to your front end. Designed to integrate with Hex-Shield Hitch-Flap™ or Mud Shields™ to create a cohesive look throughout the truck.

LuminiX®

FORD LED EMBLEMS

ILLUMINATE IN STYLE.

Upgrade your Ford truck by replacing its' factory front and rear emblems with Putco's official Ford licensed LED emblems. This installment in the Luminix line of products seamlessly replaces the OEM Ford emblems using the original mounts. Installation is quick and easy, all wiring is plug & play and routes directly to the fuse box. The IP69K rated emblem is tough and durable, designed to withstand the elements and provide a unique signature look to your vehicle. With this LED emblem you can set your vehicle apart from rest in no time in safety and style.

DIRECT TO OEM MOUNTS

Putco's LED emblem fits directly into OEM post mounts and is fitted perfectly for a headache free installation that allows full use of camera and camera washing components.

2 START UP SEQUENCE

Putco's LED emblem begins illuminating with an eye-catching start up sequence at a 6500K color temperature. Sequence begins upon ignition.

B LONGLASTING PERFORMANCE

Putco's LED emblem is injectionmolded providing a UV resilient and chipping resistant construction that delivers a longlasting performance.

4 IP69K RATED

IP6 refers to the product's ability to resist ingress of dust while the 69K refers to the product's ability to resist ingress of high temperature / high pressure water.

5 CAMERA COMPATIBLE

Direct fit emblems available for models equipped with cameras & washing systems.

(OE camera system not included)

LUMINIX FORD LED EMBLEMS

Fits F-150, Super Duty, and Ranger Models with and without Camera

- Compatible with camera and lens washing systems available with or without.
- Seamlessly replaces 0EM Ford emblems using 0EM mounts.
- Plug & play direct to fuse box.
- IP69K rated.
- 6500K white LED output high lux.
- Chip on board LED layout for crisp illumination day or night.
- Signature start up sequence.

ALL PRODUCTS ARE PATENTED AND PROPERTY OF PUTCO®

MOST POWERFUL.

Through technology using Japanese micro capacitors we have been able to introduce a smaller integrated antiflicker circuit built directly into the driver, eliminating the need for an external CANBUS module. Paired with our patented woven heat sink, the Nitro Lux® fog light kit is the best choice for any application. This fog light kit provides the same cool white color temperature that our previous generations offered with many new updated features to nearly every aspect of the fog light kit. The Nitro Lux kit is the culmination of all the experience and technology learned from previous generations of LED fog light kits wrapped into one new cutting edge bulb.

ALL NEW DRIVER BOX

UPGRADED TECH · MINIATURIZED PARTS

Putco's anti-flicker* driver box is completely sealed with Tough Seal™ 22 potting to ensure our driver is 100% waterproof. To make our driver box even better we incorporated all new miniaturized capacitors to reduce the size of our driver box by 30%. All with braided 10mil PET mono-filament braided sleeves to protect wires from abrasion and heat.

* Flicker kit still required on Ram Trucks

Non-reflective nickel finish to eliminate light ray interference inside lamp housing.

Our patented flexible heat-sink is the most advanced heat management system available on the market. Our solid state design is scientifically proven to maximize performance and the bulbs life span through superior heat mitigation.

Our new built in clock-able collar design allows for quick and easy adjustment of the light beam. This allows you to point the angle of the beam exactly where you need it.

No moving parts means a stronger design and more reliable product.

DUAL COLOR AMBER / WHITE

Select Color Using Your Vehicle's Fog Light Switch

360 DEGREES.

The Nitro 360[™] foglight kit offers the ability to adjust to any driving conditions. Simply using the vehicle's fog light switch change your light's color from white to amber or vise versa. It boasts a 6000K white temp for driving in low visibility and 3000K yellow that helps in weather such as rain, snow, or fog. On top of these features is the 360° light pattern for improved peripheral visibility. The Nitro 360 delivers the best versatility when it comes to fog lights.

Respond to different weather conditions by "Switching" between Amber or White LED outputs.

GOOD VISIBILITY

Provides necessary illumination during times of low visibility such as rain, snow or fog.

BRIGHT LEDS

Produces 6000K white temp and 3000K yellow temp for adjustable LED illumination.

AIRFLOW DESIGN

Airflow design allows for better dissipation of heat throughout the bulb.

QUICK INSTALL

Plug & play design and vehicle specific connections offer quick and easy installation.

- · · Dual color Amber/White functions for superior illumination no matter the road conditions.
- · · White LEDs for cool 6000K illumination at
- · · Amber LEDs for superior lighting in fog, rain, or snow.
- · · 360° light pattern for improved peripheral visibility.
- $\cdot\cdot$ 3000 Lumen output per LED fog light kit.
- · · Solid state design no moving parts for a stronger, more reliable fog light kit.
- · · Non-reflective nickel finish eliminates light ray interference inside light housing.
- · · Ultra-Compact driver box
- · · Pairs perfectly with Nitro Lux LED headlight
- · · Can be used with strobe functionality

COOL COPPER CORE.

Replace your dim, worn out factory halogen/incandescent bulbs with brighter, longer lasting Putco Luma Core™ LED bulbs. Our LED lights will make your vehicle more visible to other drivers, increasing your driving safety, and the cleaner, brighter light is much more attractive. This line of LED's also include our new Quick Pulse™ alerting function that flashes three times after engaging to alert other drivers when you are braking.

OPPER CORE

Luma Core[™] Led bulbs contain a copper coated heat sink for improved heat dissipation.

SOLID STATE DESIGN

No moving parts means a stronger design and more reliable product.

4 PLUG & PLAY REPLACEMENT

Luma Core™ bulbs offer error-free performance, simply plug the LED in and enjoy high power illumination.

- · Sold as pairs.
- · 1 year warranty.

#3156/3157

LUMACORE QUICK PULSE BULBS

Putco is proud to introduce a new bulb that improves road safety by helping to alert other drivers on the road when you engage your brakes. This new bulb will turn on for 1 whole secondand then flash 3 times at a .8 second interval, at which point the bulb remains lit. A powerful and economic option to enhance road safety for nearly any vehicle.

.8 SECOND PULSE

Once the brake has been

engaged and illuminated the

bulbs will perform a 3 measure

quick pulse function. The quick .8

second pulse helps alert others on

the road to the braking sequence.

1 SECOND ON

When the brake is initially engaged the lights will illuminate for 1 second before the quick pulse function begins. The entire sequence takes 2 seconds from beginning to end.

CONSTANT ON

The quick pulse illumination sequence only cycles through once, after the bulb has completed the sequence the LED bulb will remain on.

- · Alerts other drivers when you are braking.
- · Strobe flashes 3 times in red & then stays on.
- · 10 watt, 300LM running power.
- · Emits light in a full 360° Pattern.
- · Copper coated center core for superior lux.
- · Digital polarity (Reversible contact points).
- · Error free performance. No warning lights.
- · Unrivaled plug and play performance.
- · Sold as pairs.
- · 1 year warranty.

360° OF POWER.

When foul weather rolls in, your visibility can drop making travel unnecessarily dangerous. It takes a powerful set of beams to pierce through dense fog, and old-school halogens just don't have the intensity to handle the job. Retire those dull bulbs and replace them with a cutting-edge set of Putco Optic 360° LED Fog Lamp Bulbs.

HIGH POWER CREE LEDS

The latest generation of solid-state LED emitters that combine highly efficient InGaN materials with Cree's proprietary optical design and device technology to deliver superior value for high-intensity LEDs.

Our convex lenses cast the high power LED chip output in a 360° pattern which improves peripheral visibility in inclement weather / heavy fog.

SOLID STATE DESIGN

No moving parts means a stronger design and more reliable product.

4 BILLET TOWERS

Optic 360° bulbs offer error-free performance, simply plug the LED in and enjoy high power illumination.

OPTIC 360° IS DESIGNED TO CUT THROUGH FOG AND LOW VISIBILITY

- · High Power LED Fog Lamp Bulbs
- · 30 Watt Cree LEDs.
- · 360 Degree lamp angle.
- · Over 800 lumens per kit.
- · 6000K Color temperature
- Machined CNC Billet Aluminum with Optic Lens.
- · DC 12-24 voltage.
- · 50,000+ hours LED lifetime.
- · 1 Year Warranty.

EMITS LIGHT IN A FULL 360° PATTERN

LIGHTING | LED Bulbs | Metal 360

15

MOST ADVANCED.

Replace your dim, worn out factory incandescent bulbs with brighter, longer lasting Putco Metal 360° LED bulbs. LED lights will make your vehicle more visible to other drivers, increasing your driving safety, and the cleaner, brighter light is much more attractive. They're also economical; they use much less power than incandescent bulbs and burn longer and cooler. With a lifespan of up to 50,000 hours, you'll most likely never have to replace them.

15 LEDs mounted in a 360° arrangement provides a spectacular amount of light output in all directions.

2 SOLID STATE DESIGN

No moving parts means a long lasting bulb with incredible longevity.

B 360° LED ⊢ PLACEMENT

Metal 360° bulbs are built with low profile high impact LED chips providing a stunning amount of down road punch

4 PLUG & PLAY REPLACEMENT

Metal 360° bulbs offer error-free performance, simply plug the LED in and enjoy high power illumination.

METAL 360 OFFERS A VARIETY OF COLOR OPTIONS

PLUG & PLAY.

Putco Plug & Play Resistor Kits are designed to stop hyper blinking when installing LED turn signal bulbs. The easy, no splice design simply plugs in between the taillight harness and the OEM replacement bulb. This kit includes two resistors and is able to be used on all import and domestic vehicles. It's compact design makes this wiring kit super easy to install with no cutting or splicing.

- · No More OBC Warnings or Hyper-flashing
- · No Cutting or Splicing Plug&Play!
- · Compact design for easy installation.
- · Can be used on all import and domestic vehicles.
- · Each Kit includes two resistors.
- · 1 Year Warranty.

LuminiX HIGH POWER LED

GENERATION 4 LUMINIX® STRAIGHT AND CURVED LED LIGHT BAR

BEVELED EDGES · FLUSH MOUNT BOLT KITS · NEW LENSES · BEST LUMINIX® LIGHT BAR EVER

MOST ADVANCED.

Upgrade your lighting capabilities with the most innovative and advanced lighting solutions on the market, Putco Luminix LED Light Bars. Boasting the thinnest design on the market, these light bars are constructed from billet aluminum and feature a black anodized finish. Multiple sizes are available depending on your needs, and you can choose between straight or curved light bars. Nichia LEDs are tucked behind advanced optic lenses for maximum light output and a highly-focused beam that will illuminate everything in front of you. With wiring and mounting hardware included, you can drastically upgrade your lighting options in just minutes.

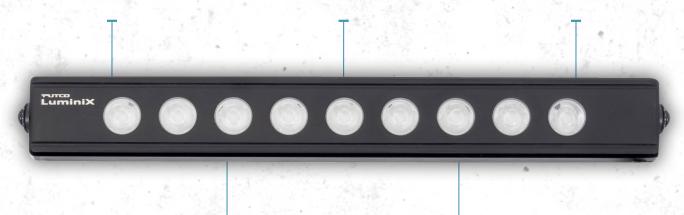

High quality Nichia 5-watt LEDs for superior shine.

2 5° OPTIC LENSES 3 IP69K RATING

Powerful optic 5° focus lenses with 400 lumens output per LED.

Fully potted to withstand the rigors of outdoor use.

CNC 6061 T6 ALUMINUM

CNC 6061 T6 aluminum housing and black anodized finish.

6000K COLOR TEMP

Clear, cool white light.

STRAIGHT AND CURVED OPTIONS

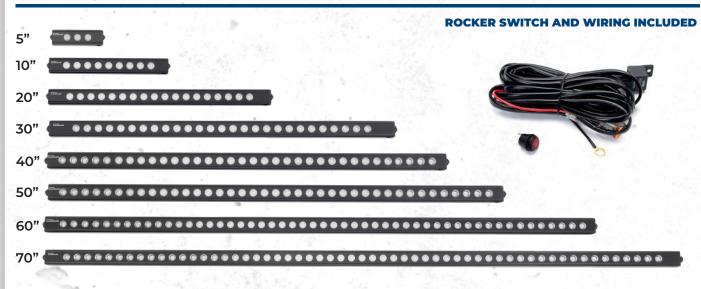

STRAIGHT LIGHT BAR

CURVED LIGHT BAR

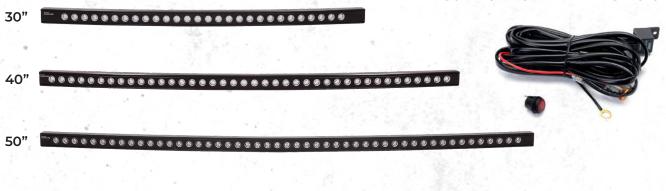

- · Engineered optic lenses maximize light output & create a bright, unique LED beam.
- · Premium quality & American manufactured.
- · 12V LED light bar.
- \cdot The thinnest light bar in the world.
- · Versatile installation solutions.
- \cdot Made of billet 6000 series aluminum.
- Coated with a UV protected black anodized finish.
- · Powerful light output (400 Lumens per LED)
- · 6000K Color temperature.

EXPERIENCE THE EDGE.

Upgrade your lighting capabilities with the next in our most innovative and advanced lighting solutions on the market, Putco Luminix EDGE Light Bars. Still boasting the thinnest design on the market similar to the original Luminix light bar series. These light bars are constructed from billet aluminum and feature a black anodized finish. Multiple sizes are available depending on your needs, and you can choose between straight or curved light bars. Nichia LEDs are housed in an argon-injected housing for the best in protection from the elements and offering the highest rated light bar.

High quality Nichia 5-watt LEDs for superior shine.

2 5° OPTIC LENSES

Powerful optic 5° focus lenses with 400 lumens output per LED.

ARGON INJECTED LED HOUSING

- Zero Moisture Ingression
- Eliminates Corrosion / Nonreactive To Other Elements
- Superior Thermal Insulation Barrier

CNC 6061 T6 ALUMINUM

CNC 6061 T6 aluminum housing and black anodized finish.

P69K & IP68 RATINGS

Fully potted to withstand the rigors of outdoor use.

FEATURES

- · Engineered Optic Lenses Maximize Light Output & Create A Bright, Unique Led Beam
- $\cdot \textit{Premium Quality \& American Manufactured}$
- · 12V Led Light Bar
- · The Thinnest Light Bar In The World
- · Versatile Installation Solutions
- · Made Of Billet 6000 Series Aluminum With A Uv Protected Black Anodized Finish
- · Powerful Light Output 400 Lumens Per Led
- · 6000K Color Temperature
- · The Highest Rated Led Light Bar!
- · Ip69k Ip68 RatingS DUST AND IMMERSION And High Pressure Water Spray
- · Mil-Std-810G, Method 511.5 Explosive Atmosphere Testing
- · Mil-Std-810G, Method 514.6 Vibration Testing
- · Astmb 117 TESTing

HIGH POWER LED MINI-BLOCK LAMPS

SMALL & POWERFUL.

High Power Luminix LED Lights deliver high quality, universal bright lighting that is 300% smaller than other imported lights on the market. Each of these come fully assembled and ready to mount on your truck, ATV, or to any area that you need high power LED lighting. These parts are constructed of black anodized 6061 billet aluminum, feature Nichia 5W LEDs, and focus lenses that concentrate the light beam path.

3 LED BLOCK LAMP

STANDARD U-BRACKETS INCLUDED

FEATURES

LuminiX

HIGH POWER LED FLUSH MOUNTS

LOW PROFILE.

Putco's Luminix LED Flush Mounts are constructed of durable 6061 aluminum, packed with Nichia LEDs and fully potted for the rigors of outdoor use. Featuring a convenient universal design and only .75 inches deep, Putco's flush mounts are designed to mount anywhere high power LED lighting is needed. Wiring harness with Deutsch connectors and adjustable mounting brackets are included.

HIGHLY VERSATILE MOUNTING OPTIONS

SLIM DESIGN · THINNEST IN THE WORLD

FULLY POTTED

Resins are used to protect, insulate, and conceal circuitry, components, and devices. Formulated to satisfy the requirements of the many demanding applications.

NICHIA 5W LED

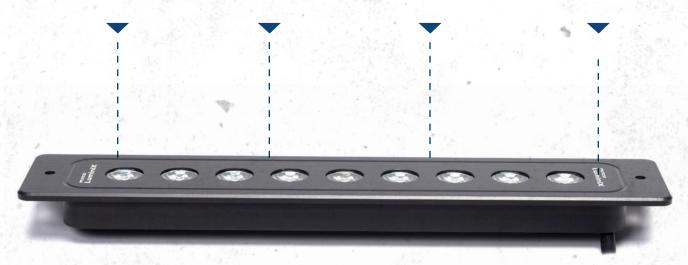

Powered by the highest flux and lowest forward voltage to ensure Luminix lights are powerful as well as highly efficient.

EASY MOUNTING

Our universal design allows for a quick and seamless installation nearly anywhere on your vehicle. The low profile design provides a sleek integrated look on every application.

HIGH POWER

Solid state design provides up to 3600 lumens of 6000k light all through Putco's proprietary 5° lens. Each kit comes with a fully compatible OEM harness for plug and play installation.

In the world of after market, limited "real estate" often dictates your mounting options. At Putco we recognize every builder is facing this dilemma and for this reason we continue to build and improve our one of a kind, low profile, flush-mount LED lights. When a surface mount isn't a viable option rely on Luminix to get the job done.

5" 3 LED ROUND FLUSH MOUNT

LuminiX

HIGH POWER LED HEAD LAMPS

—

POWER FORWARD.

Putco's Luminix LED headlights deliver high powered LED lighting in CNC 6061 Aluminum housings that include OEM compatible wiring harnesses for plug and play installation. Finished in matte black including black coated stainless steel hardware and fasteners, these DOT compliant headlight replacements offer an aesthetic and functional upgrade for your vehicle.

1P69K RATED

IP6 refers to the product's ability to resist ingress of dust. The 69K refers to the product's ability to resist ingress of high temperature (Steam) / high pressure water.

FINEST LENSES

Our latest iteration of the proprietary 5° lens casts the clearest light at precisely the right angle for optimum lux.

OEM BRACKET

Our LED headlight upgrades offer a direct plug & play installation - the kit comes with an adapter ring to retrofit the 7" factory LED headlight.

MILLED BILLET

Accuracy and consistency are the key to creating much tighter tolerances that ensure our headlamps are precision fitted, weather resistant, and reliable.

COB LED

The LED chips can be mounted so that they take up less space and the highest potential of the LED chips can be obtained. Accomplished with non-traditional mounting.

LUMINIX HEAD LAMP WITH BRACKET

DIRECT REPLACEMENT FOR OEM HEAD LAMP · 3RD GENERATION

#12017

FEATURES

- · JK SERIES 2017 models and up.
- Rugged good looks with aircraft aluminum construction.
- · Runway bright with 12,000LM on high beam output per pair.
- · Star white shine with 5,500K color temperature.
- · Plug and play installation.
- · Direct factory replacement of OEM headlamps.
- · 3 Year Warranty.

- · Made in America.
- · Rated at 5,500K Color Temperature.
- Lumens Low Beam 7,200 Lumens / High Beam 12,000
- · Rated at 18 watts/1.5 amps draw.
- · IP69K rated for Dust and Moisture protection.

- · 50,000 Hour LED Bulb life.
- · 5° Polycarbonate Lens.
- · Includes thermal control chips, over/under voltage protection.
- · Operating temperature (Equal or greater to -100 Degrees F to 180 Degree F.

LUMINIX HEAD LAMP

DIRECT REPLACEMENT FOR OEM HEAD LAMP

#12016

FEATURES

- · JK SERIES 2016 models and down.
- · Rugged good looks with aircraft aluminum construction.
- · Runway bright with 12,000LM on high beam
- output per pair.
- \cdot Plug and play installation.
- Direct factory replacement of OEM headlamps.
- · 3 Year Warranty.
- · Made in America.

LuminiX HIGH POWER LED TAIL LAMPS

REAR BRIGHTNESS.

Add safety and visibility to your Wrangler JK with a set of Putco Luminix LED Tail Lamps. Our tail lamps are designed to install in minutes without cutting or splicing. These intensely bright Tail Lights use 450 LEDs per lamp with chip on board technology. Luminix Tail Lights feature 2,400 total lumen reverse lights and sequential scanning amber turn signals. The Luminix LED Tail Lights compliment Putco's line of Luminix LED Jeep headlights and fog lights. Backed by our 2 year limited warranty.

LUMINIX TAIL LAMP (JK SERIES)

DIRECT REPLACEMENT FOR OEM TAIL LAMP · 3RD GENERATION

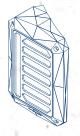

#12018

- · Designed for 2009 2016 JK
- Brilliant red running and brake light functions.
- · Super amber sequential turn signals.
- · Extreme 2,400 lumen back up light.
- · Brightest in the World!
- · Direct factory OEM replacement Plug&Play.
- · Works with all vehicle functions.
- · No error codes
- · Fully Encapsulated and Solid State Design.
- · IP69K Water and Dust Ingress Rating (Highest rating possible!)
- · 2 Year Warranty.

A SUPERIOR TAIL LAMP BEGINS WITH A BETTER LENS

Lenses designed to optimize light output as well as pattern to provide the right amount of light and a clean look.

JEEP DOME LIGHTS

LIGHTS FROM ABOVE.

Replaces your dim stock bulbs found in your overhead dome light with our Premium LED Dome Light Kit for improved visibility and superior illumination. Our Premium LED Kits are 18x brighter than the original factory bulbs, which not only improves the quality of interior light but the overall appearance of your Jeep JK. This Kit is a great and inexpensive way to maximize your JK's interior lighting. Our Premium LED replacement Bulbs produce a brilliant 13,000K light, that delivers a crisp, ultra-white light. Wired for 12V operation, these Bulbs are custom-designed to fit your JK's dome light housing perfectly. Putco LED Dome Light Bulbs have an amazingly long life expectancy which is rated for over 50,000 hours of continuous use.

PREMIUM JEEP DOME LIGHTS (JK SERIES)

4 DOOR DIRECT DOME LIGHT REPLACEMENT KIT

#980297

FEATURES

- · Brightest dome light upgrade available
- · Requires no wiring knowledge.
- · Custom designed to perfectly fit your vehicle's dome light housing.
- · Simply plug and play with the custom connector included.
- · Wired for 12V operation.
- · Life expectancy which is rated for over 50,000 hours of continuous use.

PREMIUM JEEP DOME LIGHTS (JK SERIES)

2 DOOR DIRECT DOME LIGHT REPLACEMENT KIT

#980294

FEATURES

BE SAFE. BE SEEN.

Our tailgate light bar provides the greatest visibility on the market. There are many light bars to choose from but Putco's BladeTM stands apart from the rest in virtually every aspect of it's design. From the high power chip on board technology to the weather proof tinted polycarbonate housing; you can be sure that not only are you getting a brighter, crisper, more vibrant light but an extremely durable lighting accessory. All of our light bars are backed by Putco's extensive multi-year warranty program. When it comes to setting your truck or SUV apart from the rest the decision is simple, choose Putco's BladeTM Tailgate Light bar.

1 FLEXIBLE DESIGN 25 FUNCTIONS

The flexible design allows for installation in a wide variety of locations. A curved surface or a standard straight mount both work seamlessly with our patented mounting clips.

Our classic Blade® Tailgate light bar runs on the factory 4 pin harness providing your standard left & right turn signals, reverse, running, brake and hazard over-ride functions.

B 2000 LEDS

Our compact design allows us to mount LEDs in a dense pattern that yields a light pattern with indistinguishable output points. This creates a seamless blade of light.

4 IP69K RATING

Our light bars are fully encapsulated with a tinted polycarbonate housing to keep moisture, dirt, and dust out ensuring that our light bars will function consistently rain or shine.

5COB LEDS

Resins are used to protect, insulate, and conceal circuitry, components, and devices. Formulated to satisfy the requirements of the many demanding applications.

FEATURES

- · High power chip on board technology.
- \cdot Up to 2,000 LEDs in a 60" light bar.
- · Brilliant defining LED light output in red, amber, and white.
- · Custom designed to fit all full and mid sized trucks / suys.
- Fully encapsulated in a tinted polycarbonate housing.
- · IP69K rated Fully sealed and weather proof.
- Operates with running lights, brake lights, reverse lights, and turn signals.

3M™ SCOTCH-LOCKS

BRIGHTNESS

PUTCO BLADE®

The goal of a tailgate light bar is to increase your vehicles' visibility on the road, so a high lumen output is a critical element of Putco's Blade tailgate light bar. Our product achieves a 3000-lumen output through the use of a dense arrangement of over 2000 chip-on-board LED's. Many of the competitors' products utilize SMT LEDs which has its own benefits and drawbacks. Using COB LED's allows us to pack more diodes into a tighter space creating the appearance of singular line of intense light. Ultimately when choosing your light bar visibility on the road should be one of your highest priorities. This is the feature that prevents collisions and gets you and your family home safe.

OUR COMPETITORS

EXAMPLE 1

Fewer LED's not only limit the overall lumen output but create visible breaks in the line of light.

EXAMPLE 2

The method of mounting these LEDS is less precise which creates a staggered and uneven spread of LED chips upon close examination. **EXAMPLE 3**

Overall, the lower the LED diode count, the less impact the light bar will have on the road.

INCREASE VISIBILITY WHEN IT COUNTS

WATER PROOF

This is where the Blade product line stands apart from the rest of the light bars on the market. Putco has gone through great lengths of testing and development to achieve a higher rating than any other tailgate light bar. To better understand what makes the blade so durable we need to break down the rating classification system. You may be searching on-line, comparing these products on your own, and find ratings like IP57 or IP68, etc. But what does this actually mean?

IP simply stands for Ingress Protection; the following two numbers represent what level of ingression protection is provided from solids and liquids respectively. So looking at the Blade we see a rating of IP69, this is the highest possible rating. The 6 denotes this product is 100% dust tight, that means zero dust ingression after 8 hours of testing. The second number, 9 denotes this product is not only 100% free from moisture ingression after 30 minutes of pressurized submersion but can also withstand high temperature pressurized water as well.

 Patented 2-part resin conceals, protects, and insulates the circuitry. The custom resin is injected into the patented extruded housing in a vacuum, removing all air and

moisture for a 100% waterproof product.

R

 Tinted polycarbonate extruded housing provides complete encapsulation. This creates a watertight chamber to hold the 2-part resin and protect the internal components from the rigors of use.

LET'S TAKE A LOOK AT WHAT THE COMPETITION HAS TO OFFER:

While no light bar is impenetrable, there are certainly things to look for when identifying a quality part. The light bars outlined below contain elements of a strong design but lack the crucial combinations of an exterior shell that can prevent damages on contact, and an interior defensive layer to conceal and protect delicate circuitry and diodes. Overall the competitors light bars are bigger and bulkier, contain inconsistent chip arrangements, and housing material irregularities.

OUR COMPETITORS

The material protecting the delicate circuitry and diodes from outside elements is only effective when intact. The soft resin material is easily scraped and removed exposing the diodes to moisture and dust. The exterior housing does little to prevent damage to the lens area on this particular light bar.

Again the product used to protect the circuitry is exposed to the elements and easily damaged. Once the fragile board and diodes are exposed to moisture, it is only a matter of time before component failure.

While this part contains a tough outer shell, there is no resin material encasing the circuitry or diodes. Once this seal is compromised the sensitive components of the light bar will be exposed to moisture and dust guaranteeing failure.

QUALITY

The overall quality of light is yet another category in which the Blade® Tailgate Light Bar stands apart from the rest. Many of the competitors lightbars LED spacing is so significant, there are visible breaks in the light pattern across the tailgate creating a "Christmas Light" effect. The Blade® Tailgate Lightbar utilizes a chip on board design allowing a densely packed arrangement of LED's. The high diode count in turn creates a nearly seamless bar of light along the entire length of the tailgate with a far greater impact than any of the competitor's products.

BLADE

COMPETITOR

COMPATIBILITY

Part of what makes the Putco tailgate light bar an industry leader is the ease of installation. While all light bars can be wired directly to the taillights, the Blade® Tailgate Light Bar paired with the Quick Connect Harness (currently sold separately) can be installed in minutes utilizing the trailer harness. This simple plug & play solution allows the consumer to easily install the light bar without cutting or splicing wires making this an approachable installation project for novice and experts alike.

529004

UNIVERSAL APPLICATION

529004

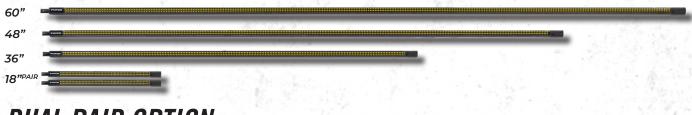

FOR 2019+ SILVERADO SIERRA HD

QUICK CONNECT HARNESS APPLICATIONS

The quick connect harness allows you to keep your factory electrical wiring intact while keeping your trailer connections available for towing without having to disconnect your tailgate light bar. Putco offers a plug & play solution for most vehicles and is currently working to provide solutions for all of the newest models.

MULTIPLE SIZES

The Putco light bar offers a lot of versatility in this category. There are 4 different lengths available to accommodate HD and LD trucks, and smaller split light bars that work around tailgate obstacles like spare tire access ports or the tire itself on Jeep JK/JL's. The different lengths provide a perfect fitment on nearly any make and model. Putco offers the slimmest low-profile option on the market at .75" wide by .375" tall. This makes the Blade an ideal option for any vehicle because it will not inhibit tailgate functionality and becomes nearly invisible once installed in the recessed space on trucks when it is not illuminated.

DUAL PAIR OPTION

Pictured above is the dual 18" option created for vehicles with obstacles in the center of the bumper. This blade is the perfect option for Jeeps and other vehicles with a center mounted tire.

ATTACHMENT

The attention to detail makes the Putco Blade® a truly innovative product. One key element of the design that many competitors have overlooked is seemingly simple. The method of attachment. While the Putco Blade® utilizes 3M™ Automotive Tape as a primary method of connection the patented clip mechanism allows for the light bar to be detached to access the port for raising and lowering of the spare tire. A roadside tire change is enough to deal with, the last thing the consumer should be concerned with is how to remove and then reinstall a tailgate light bar on the side of a busy roadway.

PATENTED CLIPS

Each Blade® comes with a set of four. The patented clip system includes a piloted hole for an alternative permanent bolt/screw on attachment if preferred over adhesion.

KIT CONTENTS

Each kit contains 4 sets of clips and strips of 3M™ Automotive tape as well as a set of scotch locks for direct wire methods, and a promoter pack to prep surfaces for improved adhesion.

SIOK BLADE

LED LIGHT BAR FOR WORK TRUCKS

A BLADE THAT WORKS.

The Putco Work BLADE™ LED Light Bar makes it easier for workers and their vehicles to be seen by providing incredibly high power illumination. By increasing visibility, it also increases safety, taking a load off of workers' minds. Based on our popular BLADE® for personal vehicles, the special features of the Work BLADE make it a perfect addition for any fleet of utility vehicles.

FEATURES

- · Up to 1400 Lumen output
- Wire concealing custom end caps for stealth and zero wire visibility installation.
- · 100% tape along length end cap design along with patented clip system for mounting.
- · Unique design is flexible which allows for
- installation on curved surfaces.
- Patented PC housing completely sealed with Putco's own
- formula of 2 part SILICA epoxy.
- · All Work Blade products come with a solid state remote control with 64 strobing (fre-
- quency and speed functions) INCLUDING white override AND solid color ON states.
- All Work Blade products come with a solid state remote control, as well as a rocker switch, and patented clips for mounting.
