

RACING POWER COMPANY VOLUME 15

VOLUME 15

FOUNDED IN 1995

Since 1995, RPC has been providing high-quality OEM and aftermarket products to the ever-growing automotive industry for over 20 years.

Our Number One goal is to supply high-quality products and exceptional customer service. We offer a full line of products with over 4,800 different parts. Keeping an eye on the latest trends and technology to offer new items is our goal. We're always working to offer something new to our customers. This is why we have so many satisfied customers all over the world who are thrilled to offer our growing line of performance products to their customers.

Here at RPC we strive to make your purchasing needs as simple and as stress-free as possible. Our knowledgeable staff and automotive engineers have decades of automotive expertise to assist you.

We would appreciate an opportunity to serve you with our high-quality product line with great customer service, quick shipping, and competitive pricing. We are confident that RPC will be a great addition to your company and will become one of your most profitable product lines.

- All of us here at RPC

OIL MANAGEMENT

Billet Oil Pump for Small Block Chevy

Billet 6061 housing. High Volume. Enlarged inlet to prevent cavitation. Features spur gear pump and large mounting boss for extra strength.

Weights 1lb. less than stock pump. Clears 4-1/4" stroke.

Designed for 8-1/4" deep pans. Uses stock mount and shaft. Fits Small Block Chevy.

Chrome Steel Carburetor Linkage Plate

Works with most 4bbl square bore carburetors

DESCRIPTION	PART#
Linkage Plate	R2333
Bracket for Morse Cable	R2330

R2330

R2333

Stainless Steel Throttle Cable Bracket

Comes with dual springs.

DESCRIPTION	PART#
Throttle Cable Bracket	R6055

CARBURETOR ACCESSORIES

Chrome Carburetor Throttle Brackets

Chromed steel. Fits most Holley and Carter AFB Carburetors.
Works with GM style cables.

STYLE	PART#
Throttle Bracket for Manual Transmission	R9619
Throttle Bracket for Automatic Transmission	R9620

Chrome Carburetor Throttle Brackets

Fits Small Block Chevy.

DESCRIPTION	PART#
Throttle Cable Bracket	R9756
Optional Transmission Cable Bracket	R9757

Chrome Steel Return Spring Bracket

Mounts directly to carburetor. Fits most 2 or 4bbl Holley Carburetors.
Includes light and heavy springs.

DESCRIPTION	PART#
Holley Return Spring Bracket	R2083

Chrome Steel Return Spring Bracket

Chrome steel. Simple to install.

DESCRIPTION	PART#
Universal Bracket	R2291
Small Block Ford V8 & Others	R2297

Dual Carb Linkage Kit - Zinc

Designed to link 2 carburetor linkages that are located inline on the side.

DESCRIPTION	PART#
Dual Carb Linkage Kit	R1408
Return Spring and Bracket for Dual Carb Kit - Chrome	R6052
Return Spring and Bracket for Dual Carb Kit - Stainless	R6052X

HEADERS

Power Steering Pumps

Saginaw Power Steering Pumps

- Gm has produced the Saginaw power steering pump for the last 50+ years.
- There are many versions of Saginaw pump assemblies that have been used on several applications including Imports.
- Pump assemblies look different by outward appearance due to hose connections and engine mounting.
- Internal Rotary-Vane type pump has remained unchanged since it's introduction.
- Units before 1975 had 5/8" ID slide-on pulley assembly that was held stationary by a keyway and shaft nut.
- 1961-78 units had a 3/8" hose barb for return line.
- All pumps used from 1963-79 used a 5/8-18 inverted flare fitting for the high pressure outlet.
- Metric 1980-Up units used a 16mmx1.5 O-ring thread on the pressure hose.
- Pulley not included *Dipstick included *Female threads.
- All pumps used from 1980-96 looked identical to earlier units. The difference is the mounting holes were metric.

Power Steering Pumps

GM Saginaw Type II Power Steering Pumps

- High flow power steering pump.
- Compact size.
- Same as GM Type II TC pumps.
- For use with remote reservoir.
- Overall length 3.79". Overall width 4.15". Overall height 5.14".
- 5/8" hose inlet works with AN 10 push on with clamp.
- Outlet accepts a 16MM O-Ring fitting or a banjo fitting for an "AN-6" pressure line.
- Shaft has .663" O.D. and uses a press-on pulley.
- Pump to be used with a plastic attached reservoir.
- Flow control valve is recommended for applications using Mustang II steering.
- Can Produce Between 1,250 -1,450 Psi
- Type II Pumps Are Less Sensitive To Radial Belt Loading, Making Them Ideal For Hard-Core Abuse.
- Pulley Not Included

Steering Boxes

GM Saginaw Vega Style Steering Box

- Cast Iron
- Input shaft diameter 5/8" *Input shaft spline: 36 *Output shaft diameter: 1.00"
- Output shaft spline: 32 and 4 Master *Lock to lock is 5 turns.
- 20:1 steering ratio - Vega cross steer *22:1 steering ratio - Saginaw -140.
- Bolts up to all Vega type brackets.
- Accepts Vega spline U-Joints, pitman arms, and accessories.
- Mounting pattern is 2-3/4" and 4-3/8" center to center of the three mounting holes.
- From outside of box to area on mounting surface is 4-1/2".
- From adjust screw to end of output shaft is 8".
- Overall length of the box not including the input shaft is 5-3/4".
- Input shaft extend rearward 1-3/16".
- Centerline through the output shaft to the front of the box is about 3".
- Recommended for vehicles under 3,000lbs.
- Best choice when building a Model T -1934 Ford.

Limited Warranty

All products are warranted to be free from defects in material and workmanship for a period of **One Year** from the date of purchase to the original purchaser. During this time, **RPC** will, at its option, credit or replace any defective product. **RPC** shall not be liable from any consequential or contingent damages, labor expenses, freight costs or injuries arising either directly or indirectly from any defects in these products or from the use of this product. You may have other rights under either State or Federal Law, including laws governing warranties.

All **RPC** electronic products will have a limited warranty of **90 Days**. **RPC** will warrant electronic products to be free of defects in material craftsmanship, under normal operating conditions. If any **RPC** electronic products are found to be defective within a **90 Day period**, **RPC** will replace or credit said item. Any changes or modifications to original product, improper installation, or improper use will void all warranty.

WARNING

Many parts available in this catalog are intended for "off-highway" applications only. The descriptions in catalog pertain to engine and/or State Laws restrict the removal or modification of any required emission control systems on a car or truck. Use of vehicle for off-road purposes may be exempt from these regulations, but check your own local and state laws.
