## COMPLETE TOPS

RT Off-Road's Complete Soft Tops are complete top packages that include everything needed to install them. Kits include: Soft Top, Windows, Bow Assembly, and all hardware. Each top also includes soft top disconnects, a soft top storage bag, and storage pockets built into the top itself. The improved frame design and bow assembly increase ease of use, and allow the tops to easily fold down when not in use.

## SAILCLOTH REPLACEMENT TOPS

RT Off-Road's upgraded Sailcloth Replacement Soft Tops are a direct fit replacement for the factory cloth and windows. The upgraded sailcloth material reduces buffering and noises typical with soft top vehicles. Factory hardware must be reused.

### 97-06 TJ WRANGLER

Note: Requires windshield channel, factory soft door surrounds, and tailgate bar which are standard equipment on factory soft top applications. If the soft top is replacing a hard top application, additional parts are required and can be purchased separately.

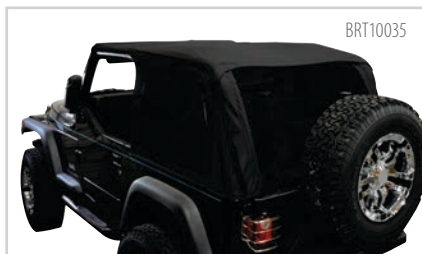

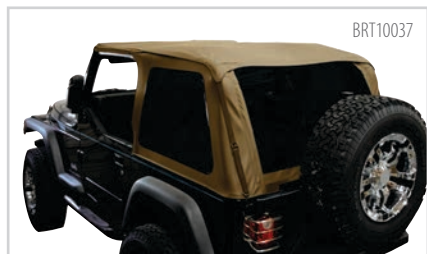

**FOLD BACK BOWLESS SOFT TOP****NEW**

RT Off-Road's Bowless Soft Top installs directly over the factory roll bar. It requires no additional supports and still maintains a snug fit. This design allows for larger side windows to improve visibility. When the side and rear windows are removed, the top converts into an open air safari top. This top also has a fold back sun roof feature and tinted windows.

## COVER ALL KITS

RT Off-Road's Cover All Kits are a unique way to outfit your vehicle with a weather resistant top system. While not completely weather tight, these Cover All Kits provide protection for vehicles without any top. Each Kit includes a beach topper, a wind breaker, and a tonneau cover. Tire cover and roll bar cover are not included.

## WINDBREAKERS

RT Off Road's Windbreakers deflect the air behind the driver and passenger seats, creating a more pleasant environment for conversation and listening to music. They mount behind the front seats to the factory roll bar and extend to the floor, reducing wind, moisture, and dust from entering the passenger compartment.

## TAILGATE BAR & TONNEAU COVER KIT

Replace your broken or missing tailgate bar and add a cargo cover for when the top is off. This is a dual function product that can either be used with a soft top or by itself as a Tonneau/Cargo Cover. The bar assembly slides onto a channel for both your top and the Cargo Cover. The channel allows you to quickly change from a top to the Cargo Cover. The Cargo Cover keeps the valuables that you store behind your seat out of sight. The tailgate bar assembly installs in minutes into the factory location.

- Tailgate Bar and retainers work with factory and most aftermarket tops.
- Black denim Cargo Cover encloses space between rear seat and tailgate.
- Includes instructions.
- Includes Tailgate Bar, retainer mounts, Cargo Cover, and all necessary hardware.
- Cargo Cover can be removed and tailgate bar can be used with standard soft top.

## FREEDOM TOP® PANEL STORAGE BAG

The Freedom Top® Panel Storage Bag is a dual compartment storage system. The outside is constructed out of a durable canvas material, while the inside is lined with a soft cloth to protect the hard top panels. Designed to fit behind the rear seat.

### 07-17 JK WRANGLER

Color	Part #
Black	SB40001

## WINDOW STORAGE BAG

Finally a safe and convenient way to store a set of windows and upper doors. One of the most difficult things about taking the top off a Jeep® is finding a place to safely store the windows and upper doors. With our heavy duty canvas Storage Bag, windows and doors can now be stowed safely and conveniently behind the rear seat. The internal felt separators will ensure their safety while removed from the vehicle. Storage Bag works on most Jeep® vehicles with a soft top and upper soft doors.

## SEAT COVERS SETS

These easy to install seat covers are made from durable polycanvas.

The front seat sets include 2 front seat covers, 2 shoulder harness belt pads and a steering wheel cover. The Seat Covers have adjustable side lace-up draw cords that create a snug fit. Front and side mounted zippered mesh pockets add convenient storage space. Large rear pockets add additional rear access storage space. Included rear carabiner clip is handy for hanging and securing small items. The Steering Wheel Cover installs in seconds without glue or tape. The rubberized interior of the Steering Wheel Cover allows for exceptional grip.

The rear seat sets include one bench Seat Cover and two Shoulder Harness Belt Pads. There is a large storage pocket on the back side of the seat cover.

**NEW****ROCKER AND SIDE PANEL GUARD SETS**

RT Off-Road's Heavy Duty Rocker Panel Guard Sets are required upgrades for serious rock crawling off-road enthusiasts. The heavy duty tube or plate steel construction protects the vehicle's rocker panels from rocks, trees, and all other obstacles one may encounter on the trail. They are finished with a textured black powder coated finish that will provide years of protection. Kit includes both driver and passenger side rocker panel guards, all hardware needed to install, and installation instructions.

## DROP PITMAN ARMS

Improve steering performance with RT Off-Road's Drop Pitman Arm. Lifting your Jeep® without addressing the steering angles often times results in bump steer and decreased turning radius. Installation of this Drop Pitman Arm will reduce the operating angle of the drag link, resulting in improved steering feel and less wear on steering parts. Each Arm is designed to bolt in place of the factory piece with no interference issues.

## BUMP STOP SET

RT Off-Road's Extended Bump Stops prevent expensive body damage to lifted Jeep® vehicles. They measure 5" long and install in place of the factory foam bump stops. The polyurethane construction results in a longer product life and improved suspension control. They can be shortened to achieve the perfect amount of suspension articulation while still preventing the tires from contacting the body.

## SHOCK BRACKET SET

Replace the ripped, bent, or broken axle side shock brackets with RT Off-Road's Shock Bracket Set. They can be easily modified to fit several other size tubes for a truly universal fitment. They are designed to mount the shock bushing parallel to the axle tube with enough space for oversized shock bodies to clear the axle tube.

### UNIVERSAL

Description	Part #
3/16" Mild Steel brackets designed to fit a 3" axle tube; Features 1/2" bolt hole; Sold in Pairs	RT25003

## HEAVY DUTY ADJUSTABLE FRONT TRACK BAR

RT Off-Road's Adjustable Track Bar is a heavy-duty, adjustable upgrade over the factory bar. The adjustable assembly allows you to dial in your suspension's alignment to guarantee that the axle is centered under the front of the vehicle. The 1.25" DOM Tubing has a heavy wall thickness that will withstand years of abuse on the trails.

- For vehicles with 0-5" of lift
- 1.25" DOM tubing
- Requires no drop brackets, drilling, or modification. Installs in factory location.
- Black powder coated finish.
- Will not work on Right Hand Drive vehicles

## HEAVY DUTY STEERING SHAFTS

RT Off-Road's steering upgrades are an affordable way to regain and improve the vehicle's on road performance. All of our upgraded steering components are engineered to improve upon the factory design to increase responsiveness and handling. We then go a step further and improve the durability and rigidity by increasing material thickness and component construction methods. Even with these upgrades, your RT Off-Road product will still install into the factory locations with simple hand tools.

## HEAVY DUTY BALL JOINT SETS

The "Heavy Duty" description is more than accurate with these Ball Joints. The newly designed Joint is leaps ahead of the OE plastic bushings plagued with premature failure. These HD Ball Joints were manufactured with sintered metallic bushings. This new bushing is highly resistant to wear and damage. The assembly is greasable to extend the life of the already durable bushings specifically engineered for vehicles with larger tires, lift kits, and heavier accessories. They install without any fabrication or modification to the factory mounts using tools that can be purchased or rented at a local parts store. The HD Ball Joints are also backed with an industry leading 12 month warranty.

## SECURE DISCONNECT LOCK KIT

The RT Off-Road Secure Disconnect Lock System removes and replaces the failure prone vacuum disconnect of Jeep Vehicles manufactured in the late 80s and early 90s. The factory disconnect assembly is replaced with a reliable cable actuated system. The stainless steel cable is zinc coated to protect the already durable finish. Our aluminum housing replaces the factory vacuum assembly and installs directly in place with a new gasket. Our wiring kit will ensure the factory 4WD light continues to operate as it did originally. Finally, our dash bracket and hardware kit will make installation a snap.

## HD DIFFERENTIAL COVERS

Protect valuable differentials with a Heavy Duty Differential Cover from RT Off-Road. These Covers are constructed of 3/8" high grade forged steel with a raised fill plug for extra oil capacity. They feature strengthening ribs to ensure a broken or peeled differential cover doesn't cut the day short. The mating surface is machined flat to ensure a leak-free fitment. All Covers are finished in a red or black powder coat and include flanged hex bolts as well as RTV.

- Constructed of 3/8" Forged Steel
- Mating surface machined flat to prevent leaks
- Raised fill plug for increased oil capacity
- Powder Coated Red or Black
- Includes hardware and RTV

## PERFORMANCE AXLE SHAFT SETS

RT Off-Road continues our tradition of high-quality, heavy-duty, products with Performance Axle Kits. These Axles are a direct replacement for the factory shaft but are upgraded to a 4340 alloy steel. This alloy is heat treated to improve both tensile and torsional strength by 30%. The Shaft splines are rolled, not cut, into the shaft to further increase overall component strength. Sold in pairs and includes hardware.

### 97-06 TJ WRANGLER, 87-95 YJ WRANGLER

Description	Part #
<ul style="list-style-type: none"> <li>• For Use With RT24005 Slip Yoke Eliminator Kit</li> <li>• For Vehicles with 2-6" Lifts: Collapsed 16", Extended 18.25"</li> <li>• Includes 3 Grease Fittings and Instructions</li> </ul>	RT24002

Note: With 1310 (3.219" Width) Series U-Joints. If 94/95 YJ has 1330 Series U-Joint, also purchase Part # D35YOKEUBK.

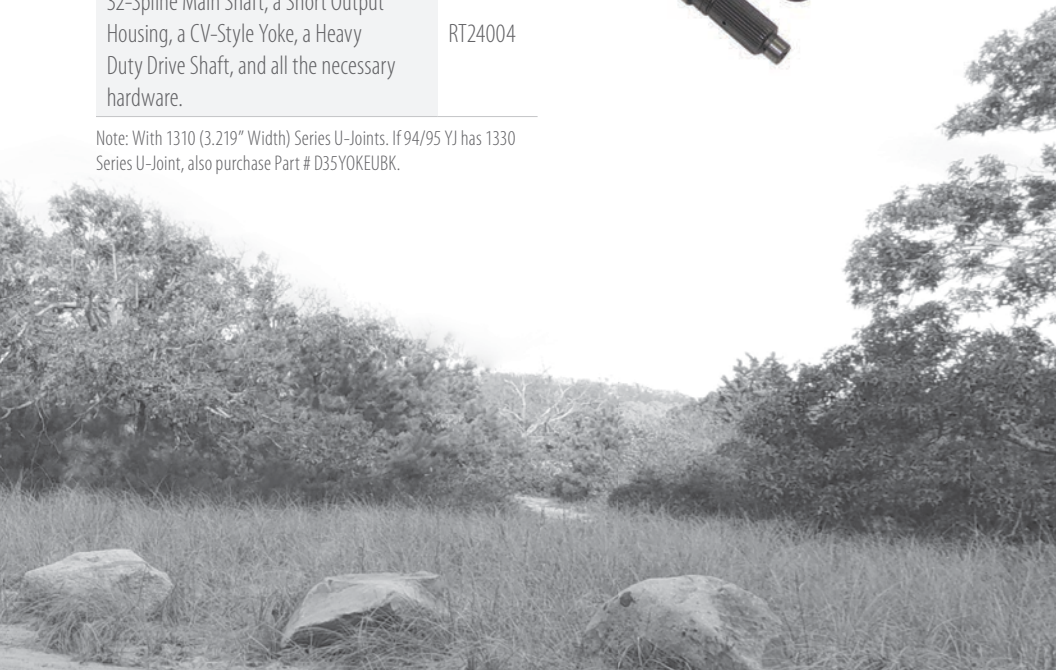

## SLIP YOKE ELIMINATOR & HEAVY DUTY DRIVE SHAFT KIT

This Kit contains everything you need to convert the rear output of the NP231 transfer case to a fixed-style yoke. When paired with the provided propeller shaft, these Kits will result in an extremely strong, vibration free driveline that will provide you with years of worry free driving.

### 97-06 TJ WRANGLER, 87-95 YJ WRANGLER

Description	Part #
Included in this kit is a Heavy Duty 32-Spline Main Shaft, a Short Output Housing, a CV-Style Yoke, a Heavy Duty Drive Shaft, and all the necessary hardware.	RT24004

Note: With 1310 (3.219" Width) Series U-Joints. If 94/95 YJ has 1330 Series U-Joint, also purchase Part # D35YOKEUBK.

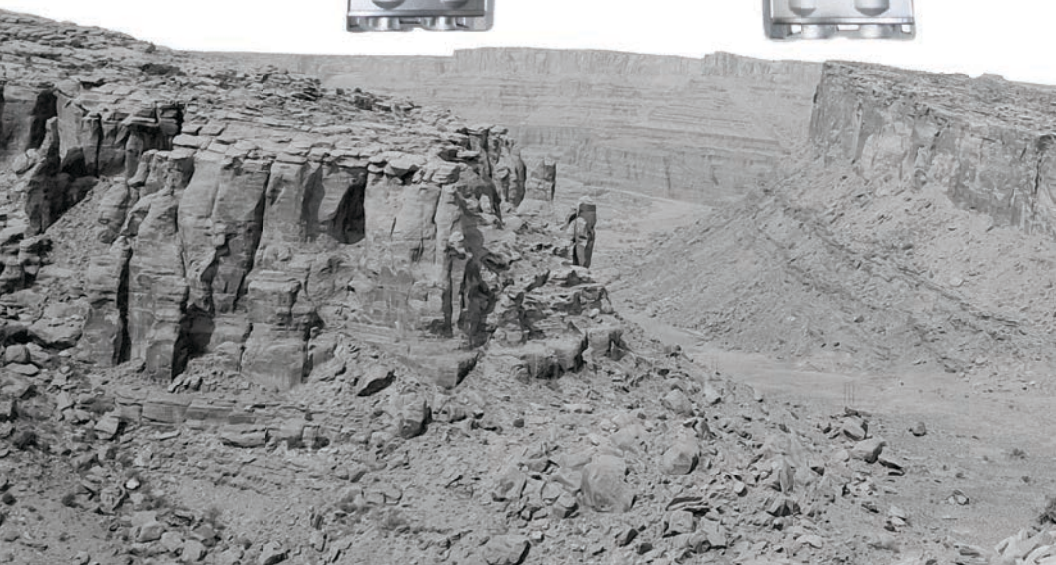

**NEW****BIG BRAKE KIT**

RT Off-Road Big Brake Kit is the solution to the strain that oversized wheels and tires place on the braking system on any JK Wrangler. This Brake Kit features calipers with a pair of 64mm pistons for increased clamping forces, resulting in increased piston area over the single piston calipers. The 13" vented brake rotors give the braking system greater leverage. The end result of the Big Brake Kit when compared to OE brakes is a 22% shorter 60-0 distance! A 17" wheel is required. Brake Master Cylinder (Replaces Part #68091278AB) is also recommended for better brake pedal feel and greater braking performance.

**07-17 JK WRANGLER**

Description	Part #
<ul style="list-style-type: none"> <li>• Dual-Piston Calipers</li> <li>• 13" Brake Rotors</li> <li>• Full Bolt-On</li> <li>• No cutting, welding, or spacers required</li> <li>• Includes everything needed for installation</li> </ul>	RT31046

## STAINLESS STEEL BRAKE LINE KITS

RT Off-Road Stainless Steel Brake Lines are designed for modified vehicles requiring additional length and performance. The additional length and stainless construction provides long lasting performance on modified vehicles. All Brake Lines are D.O.T. approved, 50 state legal. Each Kit includes stainless lines to replace the factory soft lines, mounting brackets, junctions blocks (if required), copper washers, and mounting hardware.

- Braided Stainless Steel Construction
- D.O.T. Approved
- Includes everything needed for installation

## HIGH PERFORMANCE BRAKE ROTORS SETS

High Performance Brake Rotors Sets from RT Off-Road are designed for the most extreme abuse. These Brake Rotors were tested on: the steep descents in Moab, Utah; stop and go traffic in Boston, Massachusetts; and the long range treks in-between. Each Brake Rotor is machine slotted and cross drilled to provide maximum cooling. This rapid cooling helps eliminate brake fade and potential warping. The design rapidly expels friction gases, debris, and water from the rotor and pad surface. You can expect greater braking response, increased performance, longer life, and a sporty new look. Includes left and right Rotors.

## COMPLETE BRAKE KITS WITH DRILLED & SLOTTED ROTORS

High Performance Brake kits couple our cross-drilled and slotted rotors with brake pads and a hardware kit which includes such items as boots, springs, sleeves and pins (depending on the kit.) Replacing the pins and boots on your calipers will ensure that they will function at peak performance alongside the rotors. We offer everything needed to maximize braking performance, all in one box.

## DISC BRAKE CONVERSION KITS

The RT Off-Road Disc Brake Conversion Kits will convert factory Dana 35 or Chrysler 8.25" rear axles from drum to disc brake. This is a must for vehicles with oversized tires and increased accessory weight. These Kits are designed for vehicles without ABS and include all hardware, emergency brake cables, and brake hoses needed for installation.

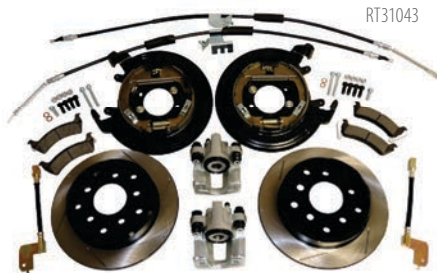

- Dana 35 for Chrysler 8.25" axles only
- Will not work on vehicles equipped with ABS
- Converts Rear Drum Brakes To Disc Brakes
- Includes: Rotors, Pads, Calipers, Backing Plates, Shoes, Brake Hoses, & Hardware

## HEAVY DUTY DUAL DIAPHRAGM BRAKE BOOSTER & HIGH PRESSURE MASTER CYLINDER KITS

Replace rusty, leaky, and faulty Brake Boosters & Master Cylinders with a HD kit from RT Off-Road. Two performance level kits were designed to specifically cater to the vehicle's requirements. The larger bore Master Cylinders are designed for upgrades done to axles with larger brake calipers. The more moderate bore is designed for vehicles with factory brakes, disc brake upgrades, and vehicles that require more braking power. Each kit consists of a zinc-coated Brake Booster, Master Cylinder, bench bleeding kit, and installation instructions. Installation involves replacing the factory Brake Booster & Master Cylinder.

- Includes mounting bracket and adjustable push rod assembly where needed
- Includes installation instructions

## HALOGEN LAMP CONVERSION KITS

The RT Off-Road Lamp Conversions are an upgrade for the conventional factory sealed beam headlamps. Included in the Headlight Conversion Kit are two halogen bulbs and two cast housings with clear glass lenses. RT Off-Road's Halogen Light Conversion Kit is D.O.T. and SAE compliant.

- Pair of 7" Rectangular or Round Assemblies
- H4 55/60W Bulbs
- Cast Housing
- Clear Glass Lens
- Meets DOT/SAE

## CLEAR PARKING LAMPS & SIDEMARKER LAMPS

The RT Off-Road Crystal Clear Lighting Packages are a D.O.T. legal way to give the vehicle an all new look. These crystal clear Lenses come complete with amber Bulbs. The bulbs and lenses included in our kit will install directly into the factory wiring harness and body. Installation requires no modifications to the body and can be completed with basic hand tools.

**NEW****TRAIL TAIL LED LIGHTS**

Each Tail Light is 1" thick and is designed to be bolt-on for CJ's and YJ & TJ Wrangler. Each Tail Light is constructed of plastic and features 148 LEDs for parking, side marker, brake, and reverse lights. Wiring is required as the Tail Lights are shipped with terminated wires. Included are a pair of Tail Lights with stainless steel hardware. An LED flasher or load resistor is required to eliminate hyper flash and bulb out warnings.

**97–06 TJ WRANGLER, 87–95 YJ WRANGLER,  
55–86 CJ-5, 6, 7, 8**

**Description****Part #**

2 Waterproof Tail Lights with black bezels and hardware

RT28099

**NEW****7" LED HEADLIGHTS**

The 15 Philips LEDs in each Lamp produce 3800 lumens at only 75 watts, resulting in an impressive amount of light without the need to upgrade the charging system of the vehicle. Each Headlamp features a matte black bezel with a polycarbonate lens and a 50,000 hour LED bulb life which means that these Lamps are designed to last, even in the harshest conditions. Also featured in each Headlamp is a daytime running light strip that requires additional wiring to function. Included is a pair of LED Headlamps with H4 connectors designed to replace OEM Headlamps.

## WHEEL SPACER KITS

Achieve an aggressive look and improved stability with a Wheel Spacer Kit from RT Off-Road. These 1.5" thick Spacers are an affordable option to add additional backspacing or expand the wheel options on a specific vehicle. Each Wheel Spacer starts as a 6061 T6 Aluminum blank and is then machined to be hub-centric and wheel-centric to ensure proper fitment. They are finished in anodized blue or black to ensure a long lasting life. Each Kit is sold complete with 10 lug nuts, grade 8 studs, and thread locking compound.

## WHEEL ADAPTERS

RT Off-Road's Wheel Adapter Kits are a perfect solution for anyone wanting to expand their wheel choice. They allow the use of any 5 on 5" wheel to be installed on any vehicle with a 5 on 4.5" bolt pattern (example JK wheels on a TJ). They start as a 1.5" thick piece 6061 T6 aluminum. They are then machined and anodized blue or black for corrosion resistance. From there, Grade 8 studs are pressed into the Adapters. Each set includes 2 Spacers, 10 Lug Nuts, and thread locking compound.

## QUICK RELEASE MIRRORS

RT Off-Road's Quick Release Mirrors are a great solution for those who want to drive without doors, but require side view mirrors. The gloss black powder coated brackets mount directly to the side of the upper windshield hinge. The included mirror arms and heads attach to the brackets with a thumb screw to allow for a quick release. Each Kit includes two mirrors, two arms, two brackets, and all hardware needed to mount it to the vehicle.

## ALUMINUM VALVE COVER KITS

RT Off-Road's Engine Valve Cover Kits are a direct replacement upgrade for factory valve covers. Each Valve Cover is constructed out of aluminum. Available in an assortment of colors, or in bare aluminum. Increased internal clearance allows for the use of oversized camshafts and high clearance rocker arms. Each Kit includes gasket, grommets, and additional installation hardware.

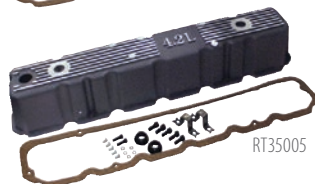

- Durable finish with polished fins and engine script
- Includes Valve Cover, Gasket, Oil Cap, Grommets, and Hardware
- Some modification may be required

## THROTTLE BODY SPACER KITS

Improve the performance and fuel economy in any Jeep® vehicle with an RT Off-Road Throttle Body Spacer Kit. The heart of this Kit is a black anodized aluminum spacer that is designed to provide a smoother, faster, and more dense air charge resulting in an increase in horsepower, torque, and fuel economy. Also included in the Kit is a gasket and mounting hardware. This Kit works with both factory and aftermarket air intake systems.

## EXHAUST SPACER KIT

Create the clearance needed to fully droop the front suspension on a 2012+ JK Wrangler with RT Off-Road's Exhaust Spacer Kit. The Spacers bring the front exhaust pipe back and down to prevent the front driveshaft boot from contacting the exhaust. Included in each kit are 2 Spacers and the necessary hardware. Bolt-in installation.

- Increases clearance between exhaust and front driveshaft boot
- Spacers feature ball flange for a leak-free fit
- Bolt-in Installation
- Includes 2 Spacers and hardware

## STAINLESS STEEL HEADER KIT – 4.0 ENGINE

- A pair of ½" thick zinc-coated flanges
- Primaries are manufactured of 1-1/2" diameter polished, mandrel-bent 304 stainless steel tubing. They meet at a 6-to-1 polished 304 stainless steel collector, which improves exhaust flow through the entire operating range of the engine.
- The primaries are fully welded to the flanges and collector, resulting in an extremely strong and leak-free Header.
- The outlet of the collector is made of polished, mandrel-bent 304 stainless steel with a 2-1/2" diameter.
- Increased horsepower, torque, throttle response, and fuel mileage along with years of worry-free operation.
- Installation is straight forward with no cutting, grinding, or welding needed.
